

## OUR MISSION

Connecting Minds  
Advancing Life Sciences  
Supporting Our Community

Supporting a network and professional development of Korean life science researchers and professionals in the UK

Promoting research and business collaboration in the life sciences sector between Korea and the UK

Supporting the expansion of UK companies and institutions into the Korean market

## OUR VISION

KULSA offers a solid networking platform for Koreans based in the UK studying or working in the field of life sciences.

As a strong collaborative community for Korean researchers, students, NHS workers and industry experts in the UK, KULSA promotes interdisciplinary collaboration.
