

# TeamUp

Find a brilliant match  
& Build an Impactful  
Agrifood Startup

---

A short guide for all new Tech & Biz  
cofounders

Co-funded by the  
European Union

# The purpose of Matchmaking Phase

The purpose of this stage to **create** connections between technologists (Tech) and business professionals (Biz) to **form strong** matches and prepare proposals for the programme's next stage

During this phase, you will meet potential co-founders who share their vision and values, ensure your compatibility and foster strong, collaborative relationships. The sessions will be engaging and will test your skills and limits when it comes to form a new venture.

EIT Food supports this process to create balanced teams equipped to develop and commercialize innovative agrifood solutions.
