Practitioner System you
can control and
synchronize up to 250
Lucia N°03 Home
Portals.

Super experience for groups,
workshops or couples.

What is Lucia N°03?

Lucia N°03 is a meditation lamp that generates pulsed and constant light of varying temperatures and follows specific algorithms, unique and patented. With eyes closed, the rapidly changing pulses hit the retina of the person traveling with the light. This creates individual and ex-

tremely impressive visual imagery and may include colors, shapes and patterns in the brain. Light travelers often describe these as kaleidoscopic-like images of unprecedented beauty. So exciting yet gentle. They experience themselves in a new way.

What is Lucia N°03 for?

The Lucia N°03 meditation lamp enables you to penetrate deeper into your own consciousness quickly, legally and without side effects, and thus discover completely new facets of yourself. Compared to a meditation practice that requires many years of experience, Lucia N°03 can open up and unlock other levels of consciousness after just a few minutes. Changes in consciousness can be achieved through various techniques and methods, such as meditation, sport, dance and more. However these require a lot of practice and time. With Lucia N°03 you can immediately raise your consciousness to other levels - without years of training or illegal substances.

*Lucia
N°03*

Would it be beneficial for me too?

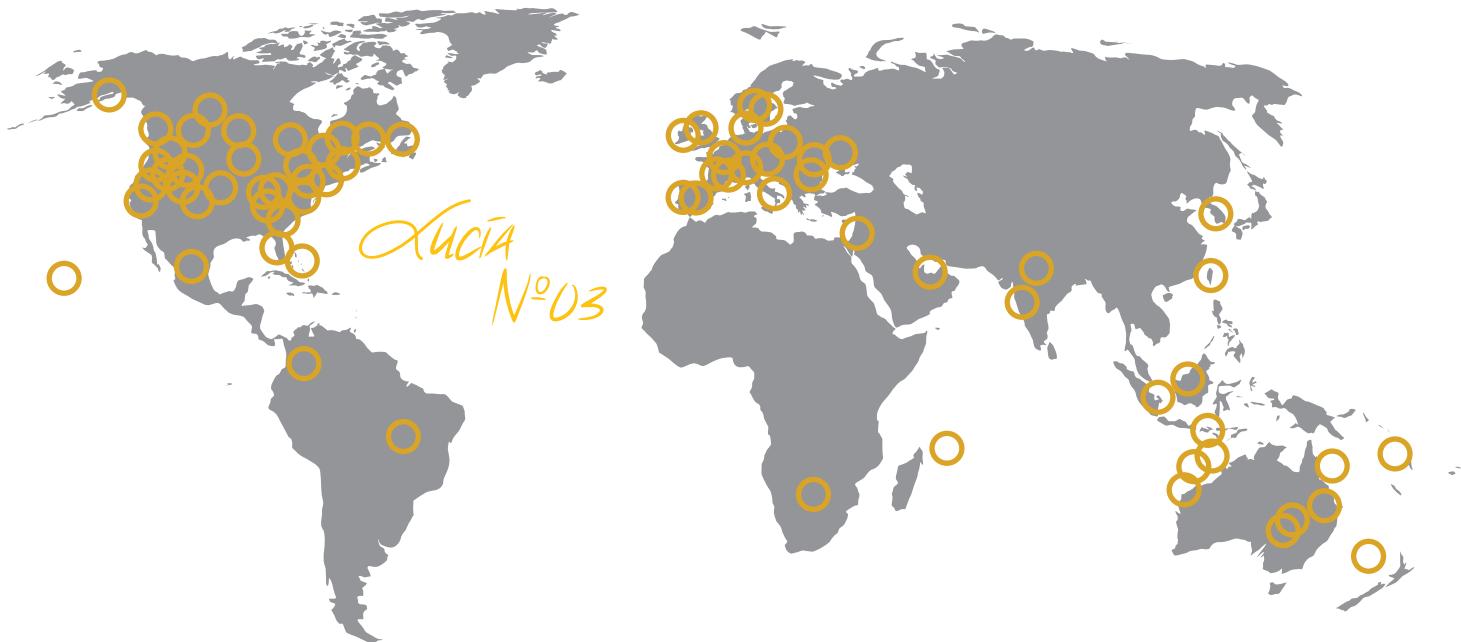

Absolutely, every* individual aged 18 and above should experience the Lucia N°03 at least once in their lifetime. The efficacy of this groundbreaking meditation lamp can truly be grasped only through firsthand experience and self-reflection. Each individual's encounter with the Lucia N°03 is profoundly personal. Many describe experiencing positive outcomes like relaxation, feelings of happiness, heightened creativity, profound aesthetic

sensations, mental clarity, and even visionary insights. Moreover, for those seeking transformative change in their lives, a light journey with the Lucia N°03 can provide invaluable support. The developers have meticulously crafted a comprehensive framework and a structured questionnaire to guide you.

* Not suitable for people with stroboscopic intolerance. More information on: www.light-attendance.eu

Studies on Lucia N°03

The Lucia N°03 is the only meditation lamp backed by sound scientific evidence of its effectiveness. Research conducted by esteemed international universities such as Munich University of Applied Sciences, Freie Universität Berlin, University of Sussex in Brighton, and Université de Lorraine in Nan-

cy have been able to prove, among other things, that the Lucia N°03 activates the same areas of the brain as LSD, MDMA or psilocybin. Furthermore, EEG recordings have revealed similar patterns to states of consciousness associated with deep relaxation or meditation.
