# Organisation Profile

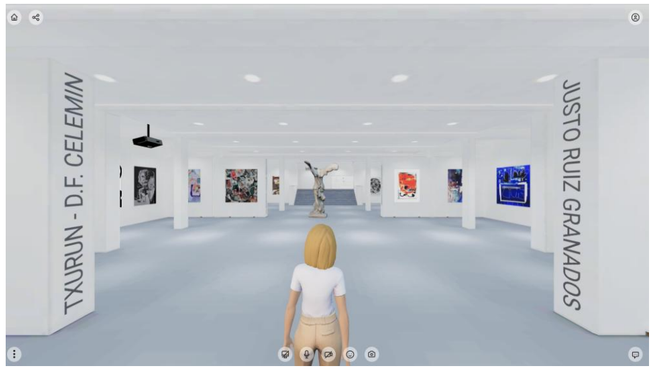

Vienna-based Captic offers a white-label private metaverse solution, using a proprietary tech stack created/based in the EU:

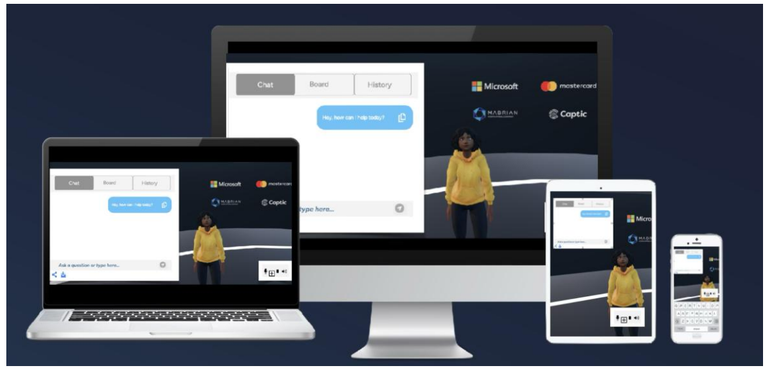

- It outperforms legacy engines x5-10 on web = more speed
- It’s modular, interoperable, and cross-platform ready by design = no friction
- It has the highest standards of security (ISO-level)

# Project examples

- +10K worlds at 99.9% uptime on demo alone
- Official partners with stock-market listed corporations
- EU grant = infrastructure for industrial metaverse

# How can we help you?

- Tech stack partners for spatial computing-related projects (remember, we own the full stack)
- Projects that require high levels of security & scalability
- Future-facing projects that require innovation and integrations (AI, APIs…)
