

*Sustainable Path Advancing Community Empowerment - New European Bauhaus for Social Economy and Transformative Living*

Duration  
September 2024  
August 2026

Funding  
Single Market Programme (SMP)

Consortium  
6 partners from  
3 EU countries

Reference  
Project n°101169704

## Partner Regions

## General goal

The project aims to **boost the development of the social and green economy in rural areas by transforming abandoned or underused spaces into community-led hubs for sustainability, innovation, and inclusion**, in line with the values of the New European Bauhaus and Green Deal.

## Specific goals

-  **Space reuse:** Map and transform unused areas into sustainable activities.
-  **Social ecosystems:** Develop networks for scalable solutions to local challenges.
-  **Collaboration:** Engage stakeholders and plan territorial actions.
-  **Replicability:** Create a scalable and adaptable model.

## Main activities

-  Mapping of underused buildings and social economy stakeholders in three rural regions.
-  Field research with citizens and local actors to identify community needs.
-  Selection and publication of best practices aligned with NEB values.
-  Organisation of 3 Social Economy Missions in Spain, Italy, and Slovenia.
-  Development of 3 territorial action plans and 1 EU-level policy recommendation.
-  3 local Sharing Days, and 1 EU-wide final online event.
