

RELOO

**Artificial Intelligence Solutions**

**Use AI and your data to improve business operations**

# How do we benefit you?

1. **Solve challenges**
2. **Optimal custom solution and support**
3. ***Embark the AI revolution!***

**What we do**

# Production planning

**Best schedule machines** or **identify areas of improvement** by predicting resources usage.

- **Easier and faster planning**
- **Increase machine saturation**
- **Save energy and resources**

# Machine maintenance

**Predict machine breakdowns** for proactive maintenance.

- **Reduce production downtimes**
- **Reduce maintenance costs**

# Supply chain

**Predict demand and costs to optimize supply chain decisions.**

- **Optimize inventory and production**
- **Boost customer satisfaction**
- **More accurate pricing**

# Document analysis

Extract structured data, classify files and generate documents automatically.

- Quick and precise data extraction
- Automatic identification of issues
- Save time on documentation

## Tailored AI agent

Virtual agent tuned on your company data and documents.

- Assistant for clients, employees and managers
- Increase team efficiency and precision
- 24h help desk and ticketing support
