Skills Checker

# WHAT IS EDULAI SKILLS CHECKER®?

Edulai Skill Checker® is a feature of the Edulai package built to measure the skills required today by the labour market. The Skills Checker® immediately assesses the competencies of individuals within an institution.

edulai

PROBLEM

How to quickly identify the level of soft skills of employees, candidates or students that we are about to hire?
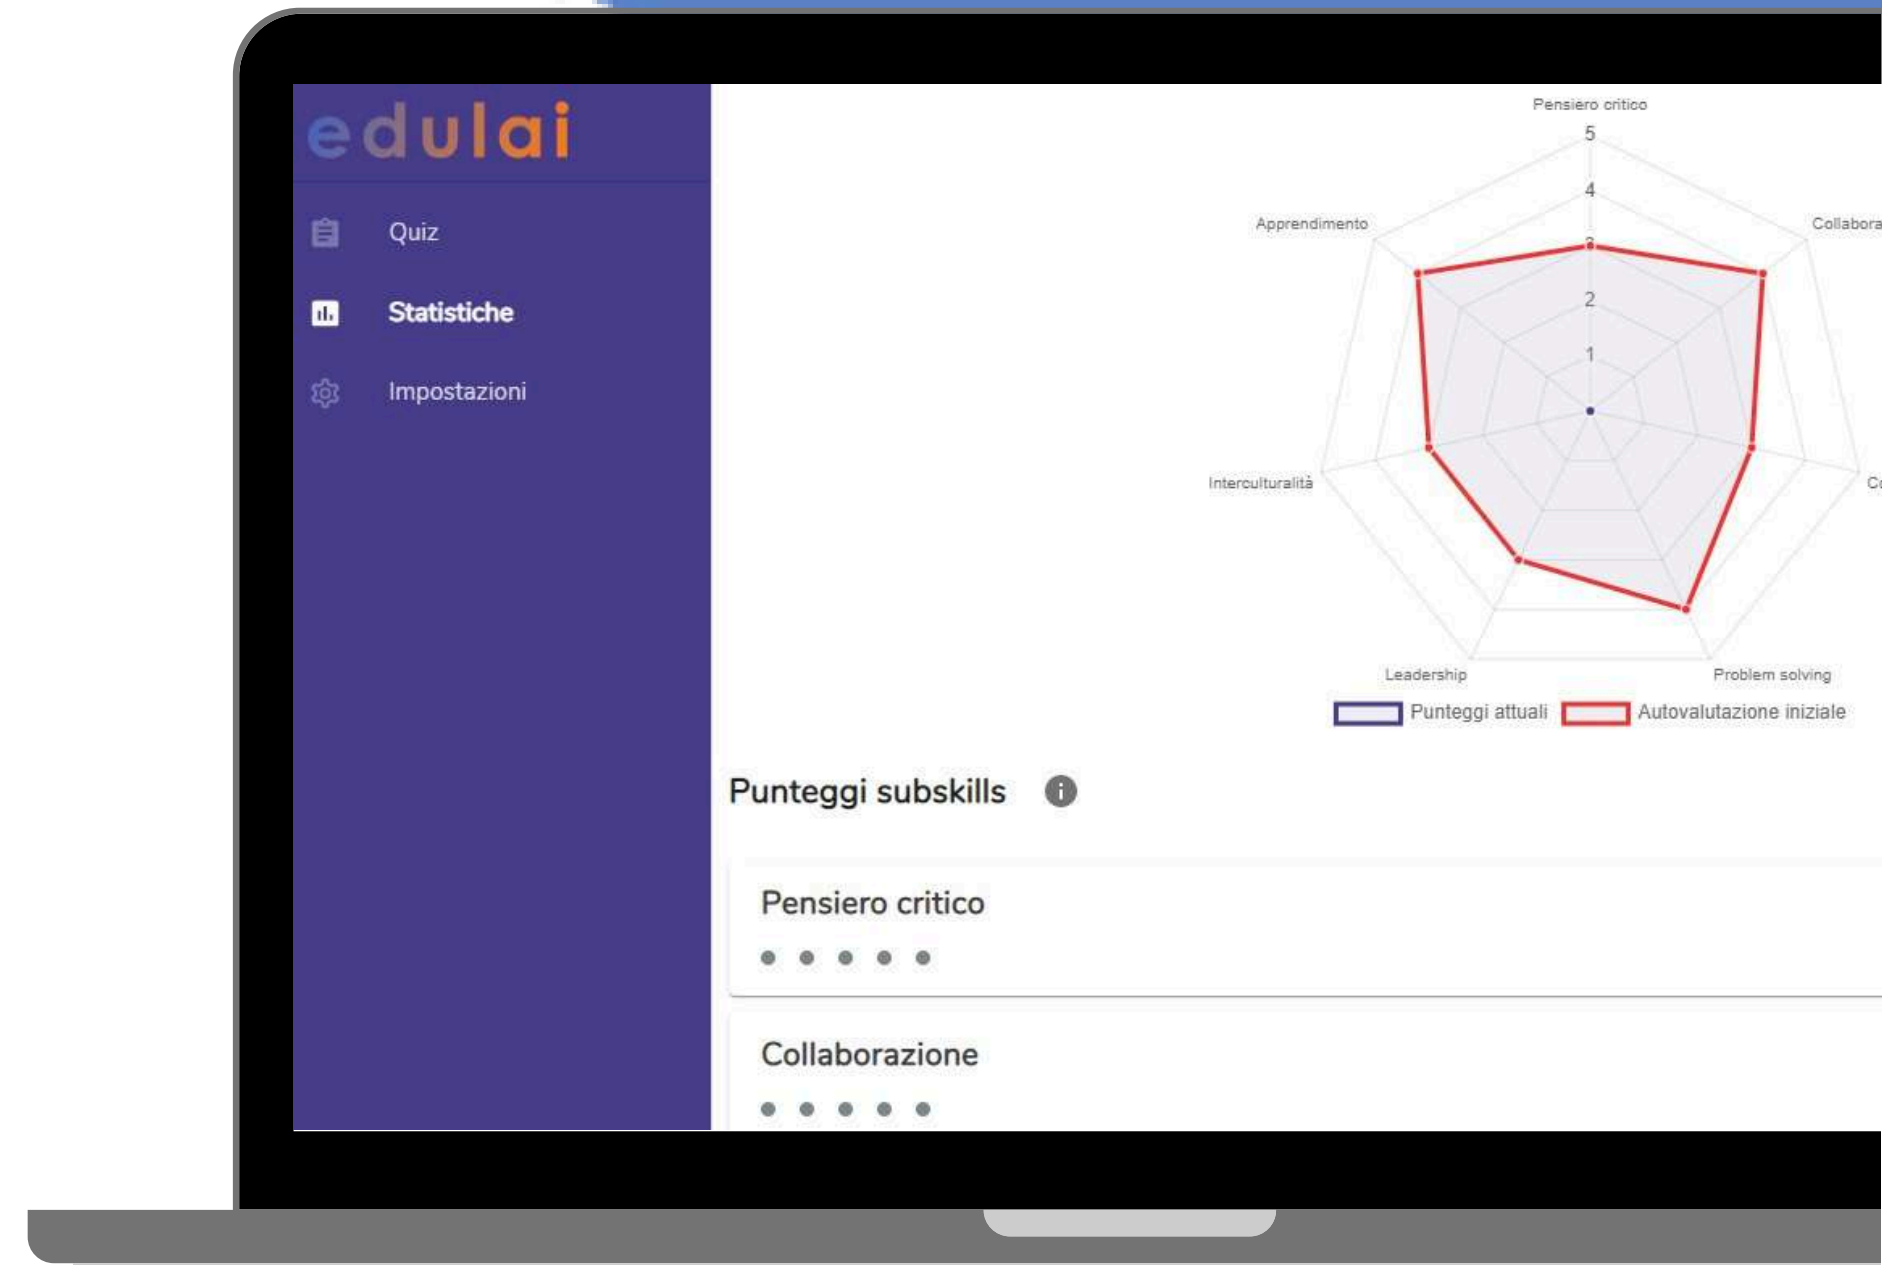

SOLUTION

Through a software that enables us to automatically evaluate these competencies and to provide detailed report.

edulai

HOW IT WORKS

Edulai Skill Checker ® presents a serie of general professional cases to which users have to answer. Once the answers are completed, users have access to the results. Supervisors have also access to further automatic aggregated reports.

edulai

FEATURES

"In-house" built evaluation

The system carries out a skills evaluation based on a tested Rubric built "ad hoc" in house by the Edulai team

5-Star rating system

The assessment of soft skills for each user, ranges from 1 (basic level) to 5 (expert level) stars

Visual and detailed reporting

The evaluation is provided both through visual graphics and through descriptive analytics for each user

Self-assessment of skills

Each user performs an initial self-assessment of the skills compared with the one done through the Skills Checker®

edulai

DIFFERENT TYPES OF ACCOUNTS

ADMIN

The institution can customize questions and add new quizzes to the system

PRINCIPAL

The user has access to a wide range of aggregated and filterable statistics over time
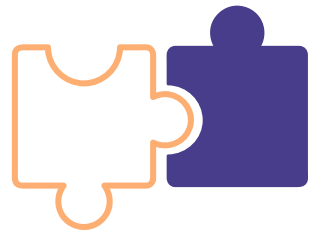

SUPERVISOR

The user launches the questions, invites users to answer them and views real time results

BASIC USER

The user logs into the system with login and password and answer the questions
