NDEVE

Next-Degree Enterprise Value Engine

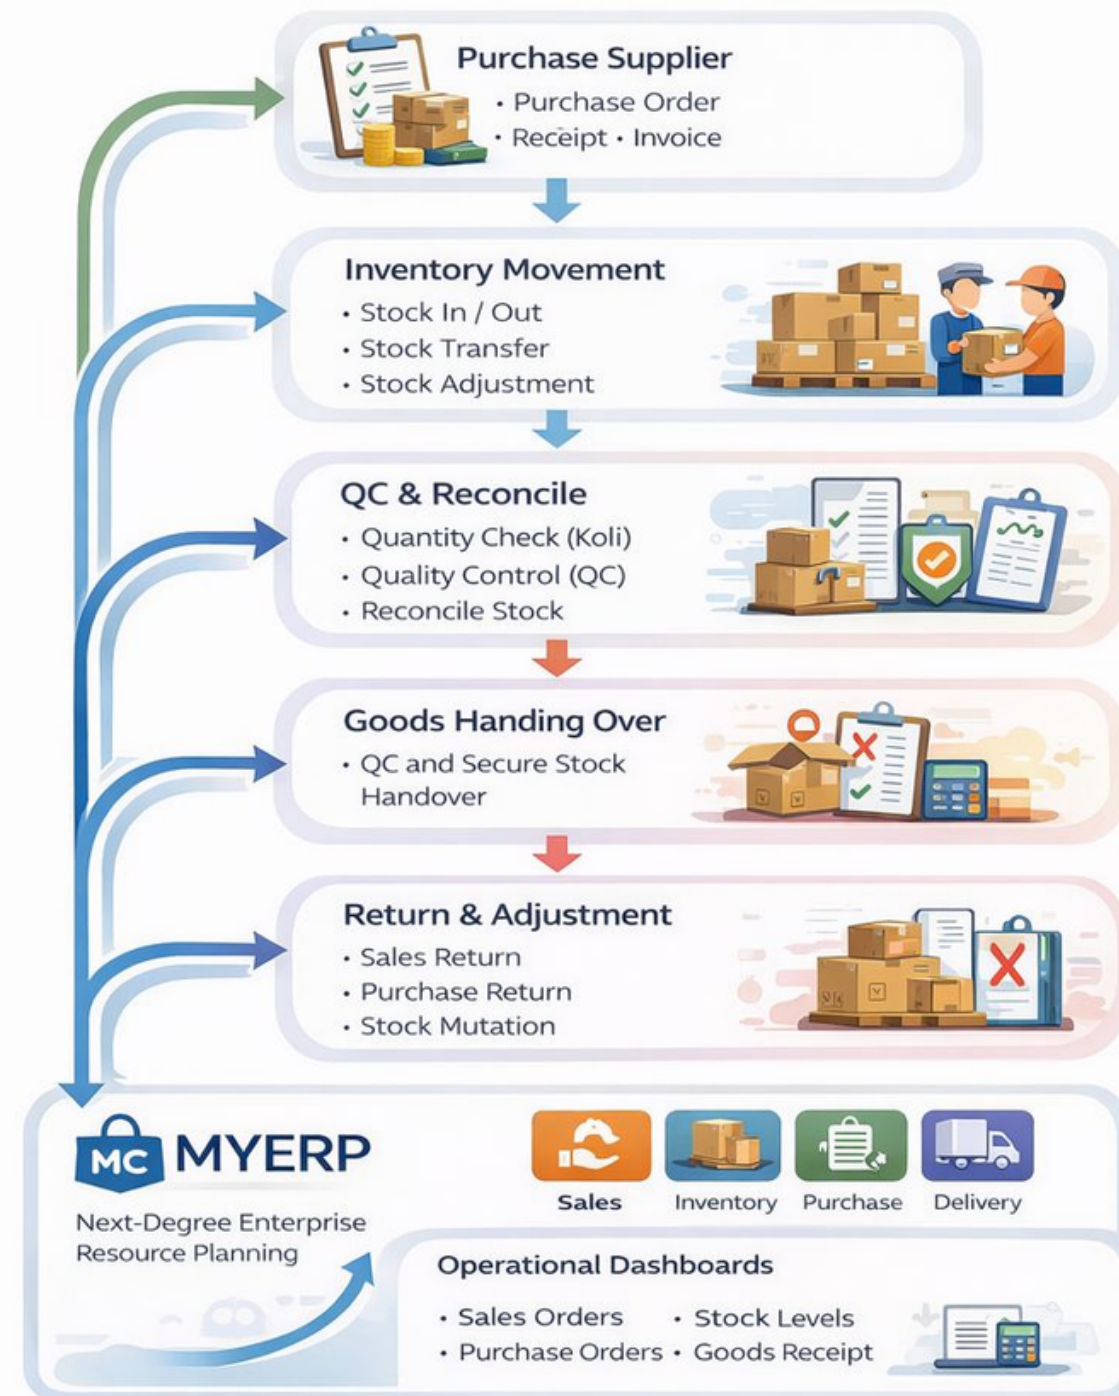

ERP Is Not Software

**It Is How a Company Thinks, Decides, and Grows
From Daily Transactions to Intelligent Decisions**

NDEVE

**Next-Degree Enterprise Value Engine
Beyond ERP**

NDEVE: ERP Flow — Integrated Operations Intelligence Loop

1. APA ITU NDEVE – MYERP?

MYERP adalah sistem operasional inti perusahaan yang menghubungkan aktivitas harian—jual, beli, stok, kirim, retur, project—menjadi satu alur kerja yang rapi, terkontrol, dan bisa diskalakan.

Mesin penerjemah Realitas Bisnis → Nilai → Keputusan

2. Masalah yang diselesaikan MYERP

Kebanyakan perusahaan mengalami ini:

- Sales jalan sendiri
- Gudang jalan sendiri
- Purchasing jalan sendiri
- Accounting nyusul belakangan
- Retur & ekspedisi ribet
- Data dobel, salah stok, salah kirim

MYERP hadir untuk MENYATUKAN alur kerja.

8 MODULES ENTERPRISE-GRADE

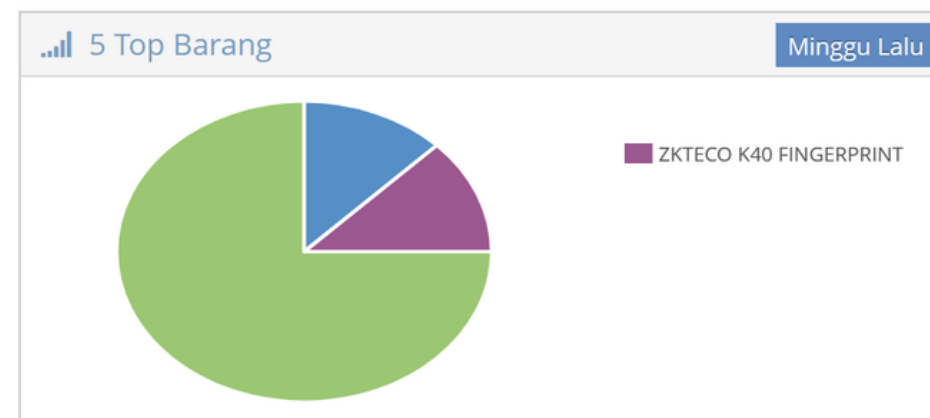

MYERP adalah mesin operasional end-to-end yang memastikan setiap barang, aktivitas, dan proyek tercatat, dicek, diserahkan, dan dipertanggungjawabkan.

A. Purchase & Supplier Management

B. Receiving, QC & Quantity Control

C. Inventory & Warehouse Control

D. Delivery, Handover & Security

E. Sales & Return Management

F. Project & Budget Tracking

G. Approval, Control & Governance

H. Integration Layer

FROM INPUT TO DECISION : SYSTEM WORKFLOW

MYERP = Control Before Record

MYFICO = Meaning After Control

INCLUDE : ERP + VALUE ENGINE

A. Purchase & Supplier Management (Barang datang dari luar perusahaan)

- Purchase Request (PR)
- Purchase Order (PO)
- Supplier management
- Harga beli & termin
- Pajak pembelian
- Incoming shipment reference

Barang belum dianggap “milik perusahaan” sebelum lolos proses berikutnya

B. Receiving, QC & Quantity Control (Barang masuk = risiko)

Receiving

- Goods Receipt (GR)
- Pencocokan PO vs barang datang
- QC (Quality Control)
- QC status: Pass / Hold / Reject
- Catatan QC
- Blok barang bermasalah
- Perhitungan Koli
- Jumlah koli / carton / pallet
- Selisih koli vs PO
- Tracking fisik barang besar

MYERP menjaga barang sebelum masuk stok

C. Inventory & Warehouse Control (Barang yang sudah disahkan)

- Stock in / out
 - Stock per gudang
 - Locator / bin
 - Batch / serial (jika ada)
 - Stock adjustment
 - Slow-moving stock
- Stok bukan “angka”, tapi barang nyata

D. Delivery, Handover & Security (Barang keluar = risiko baru)

Delivery Order (DO)

- Picking & packing
 - Ekspedisi / internal delivery
 - Penyerahan Barang (Handover Control)
 - Serah terima berbasis dokumen
 - Tanda tangan / bukti terima
 - Status: handed over / pending
 - Responsibility transfer (custodian)
- Barang tidak hilang di “abu-abu operasional”

Logistic Overview

Summary Pembelian Pesanan

myerp.solusimu.id

INCLUDE : ERP + VALUE ENGINE

E. Sales & Return Management (Nilai bisnis terjadi)

- Sales order
 - Invoicing
 - Retur penjualan
 - Retur pembelian
 - Adjustment reason tracking
- Exception tercatat, bukan disembunyikan

F. Project & Budget Tracking (Untuk kerja berbasis proyek)

- Project setup
- Budget per project
- Pengeluaran per aktivitas
- Material & biaya per project
- Progress vs budget
- Overrun detection

Project tidak menunggu laporan akhir baru tahu rugi

G. Approval, Control & Governance (Otak pengaman MYERP)

- Approval PR / PO
- Approval QC override
- Approval DO & handover
- Approval budget project
- User role & authority

ERP sebagai pengaman, bukan pencatat pasif

H. Integration Layer

(Dunia luar)

- Ekspedisi
- Marketplace API
- POS / channel lain
- MYFICO (Accounting & Value)

Services:

- Full MYERP (sales, purchase, inventory, QC, koli, delivery, handover, project basic)
- MYFICO (finance, costing, tax basic, asset, early warning)
- Approval & control
- Standard reports & dashboards
- Cloud hosting & maintenance
- Business-hours support

NOT INCLUDE :

Advanced Manufacturing & MRP

- Bill of Material (BOM) kompleks
- Production planning
- Shop floor control
- Multi-level WIP tracking

Multi-Company & Intercompany

- Multiple legal entities
- Intercompany transaction
- Consolidated financial reporting

Advanced HR & Payroll

- Payroll engine
- Attendance & shift
- BPJS / tax payroll automation

Advanced CRM & Marketing Automation

- Campaign automation
- Lead scoring
- Email / WhatsApp automation
- Loyalty engine kompleks

Country-Specific Tax Integration

- e-Faktur
- e-Bupot
- Coretax / DJP direct integration
- Local tax e-reporting

Advanced BI & AI Forecasting

- AI demand forecasting
- Predictive pricing
- Scenario simulation
- What-if modeling

Custom Development & Heavy Integration

- Custom workflow di luar standar
- Integrasi ERP pihak ketiga
- Custom marketplace non-standar
- Custom mobile app

Unlimited Support & Onsite Services

- 24/7 support
- Dedicated account manager
- Onsite training / implementation lanjutan

Data Migration Skala Besar

- Import histori transaksi bertahun-tahun
- Data cleansing kompleks

1 Regulatory / Industry-Specific Modules

- Banking
- Mining
- Government compliance khusus

The standard package covers all core operational and financial processes. Advanced or industry-specific needs are handled as add-ons to ensure system stability.

NEXT STEP : UNDERSTAND → ACTIVATE → PROTECT → GROW

1

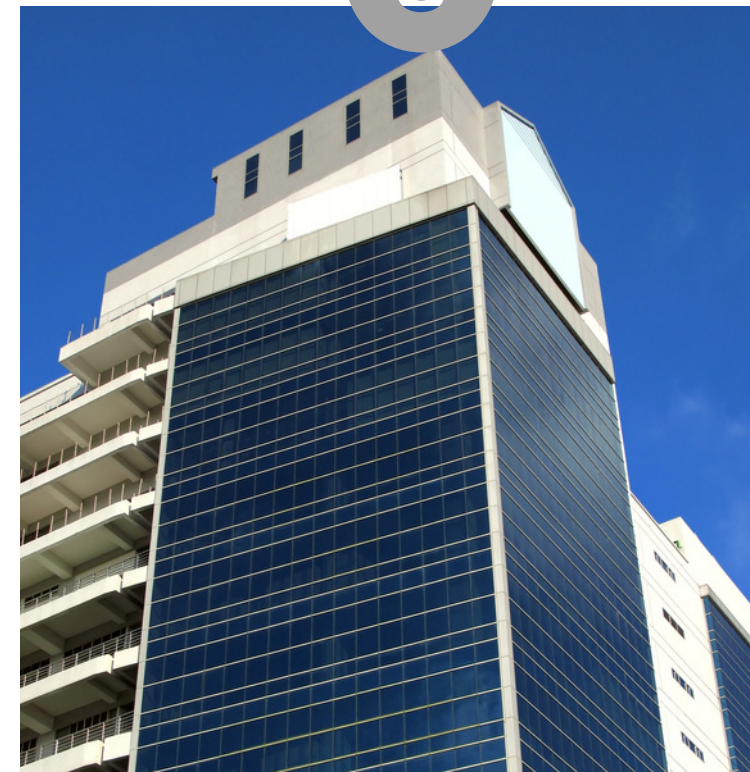

Understand Your
Business Reality
(Discovery & Mapping)

2

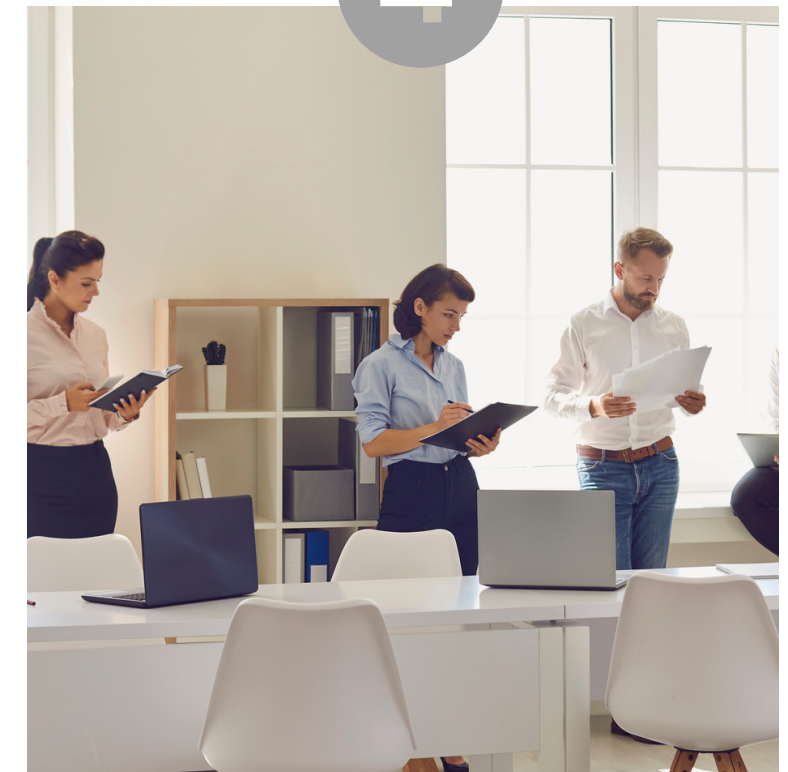

Activate Core ERP &
addons needed
(System Activation)

3

Turn On Early Warning &
Controls
(Value Protection Mode)

4

Optimize, Scale, and
Grow
(Continuous Value
Growth)
