Digital Launch

DAMISE

What is Digital Launch?

Digital Launch (DL) is a modern marketing method that enables you to promote your products and services quickly, effectively, and economically to your target audience worldwide through innovative digital infrastructures. It eliminates physical boundaries, allowing you to showcase your products globally, connect directly with potential customers, and measure your results through detailed data analysis.

DAMISE

What Do You Gain with a Digital Launch?

Global Reach, Local Impact

Deliver your products directly to potential customers in the local languages of your target markets.

Data-Driven Effective Marketing

Identify the right target audience through visitor behavior analysis and create promotions that drive sales.

Striking and Effective Content

Make your brand unforgettable with video, live streaming, and over 30 customizable digital components.

Break Boundaries with a Hybrid Launch

Present your physical launch simultaneously in the digital space, and continue access and engagement after the event.

Spend Less, Gain More!

Increase sales opportunities by reaching global audiences at a lower cost compared to traditional methods.

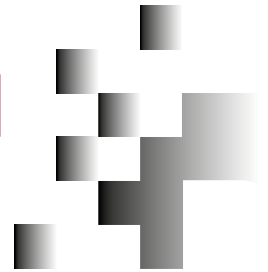

Reach Your Target Audience Directly

Send direct launch invitations to hundreds of decision-makers, receive quick feedback, and grow your business.

DAMISE

How Does a Digital Launch Work?

01

Content and Strategy Development

A promotional strategy tailored to your target audience is developed for the digital launch of your product or service. Visuals, videos, live stream plans, and other digital content are created.

Creating Multilingual Content

Content is created and customized in local languages to reach your global target audience.

02

03

Personalized Design Process

Custom, user-friendly, and attractive digital launch designs for your brand are created using the rich design components within the module.

Digital Invitation and Targeting

Direct digital invitations are sent to potential customers from selected countries and industries, and the launch announcement is made.

04

05

Publishing the Digital Launch

The prepared digital content is made accessible online worldwide on the specified date.

Real-Time Visitor Tracking and Engagement

Visitor interactions are tracked in real time, and user behavior is analyzed instantly.

06

07

Detailed Result Analysis and Reporting

Post-launch visitor behavior (number of visitors, profile, visit duration, and geographic distribution) is reported in detail.

WHY DAMISE Digital Launch?

Industry-Focused Expertise

We provide digital launch solutions tailored to the aviation, defense, space, and maritime industries. We understand the dynamics of the sector and connect you with the right audience.

Reliable Global Network

Damise is directly connected with over 2,500 industry-leading companies worldwide, providing you with the opportunity to communicate with the right people.
