# SIGNES DE SENS

---

Signes de sens has been working for 15 years to **make culture, learnings and information accessible** to people with cognitive, sensory or psychic disabilities.

We bring **concrete solutions** to problems faced by most vulnerable people and prove that **diversity is the main source of innovation**.

**Everyday, we act in favour of a more including society giving everyone the place he deserves.**

## Key data

---

of financing**

.....

*Private sponsorship, Public  
subsidies, sales.*

# TRANSFORMING THE SOCIETY THANKS TO DISABILITY

*Our experience in social innovation and co-construction allows us to answer in a specific way every identified need.*

Universal design is at the heart of our project :  
by considering fragility as a source of innovation,  
we design with people with disabilities and their caregivers adapted and  
useful solutions to all.

# MAKE PLACES AND SERVICES ACCESSIBLE TO ALL

*On every territory, we act beside all structures supporting accessibility and the welcome of every public.*

## CULTURE

We encourage cultural actors in their development projects **for accessibility of Public places** (museums, libraries).

## EDUCATION

We develop **accessible tools** for every children and adults, with or without disabilities, in order to accompany them towards more autonomy.

## SOCIAL AND MEDICAL

We work with professionals of the Medical and Social on the **innovation of practices** and educational tools to better care for patients.

## CORPORATION

Our experience in accessibility allows us to accompany **every professional** : trainings, workshops, Mediation, advising, technical services, ...

## FRENCH SIGN LANGUAGE

Signes de sens proposes awareness-raising workshops to hearing disabilities, FSL initiations and trainings but also books and adapted games.

# ACTING FOR INCLUSION

*Answering the needs of the most fragile public, we create innovative solutions to answer disability - related issues*
