

BIG knitt

By Magic Pulp

ENDLESS CUSTOMIZATION

Fully customizable, Big Knitt can be designed in any size, color, or pattern. They adapt to every context, artistic, scenographic, or architectural, bringing to life singular, poetic, and memorable spaces.

A UNIQUE CRAFT GESTURE

Magic Pulp's Big Knitt are giant meshes made from paper yarn, hand-crafted using a crochet technique performed without tools. Each piece is born from a pure artisanal gesture, transforming the material into supple and expressive volumes.

LIGHT YET MONUMENTAL INSTALLATIONS

This unique know-how makes it possible to create installations that are both light and monumental: space dividers, aerial ceilings, immersive sculptures, or decorative elements that instantly captivate the eye. Their strength lies in their powerful visual impact, combined with surprising lightness.
