

Biolinker

Revolutionizing Proteins for a Sustainable Future

Biolinker: Pioneering the Future of Protein Biotechnology

Innovation, Scalability, and Strategic Growth in Biotech.

 by **Mona Oliveira**

Up to now...

Biomanufacturing is the **emerging industry**

50%

of bioprocess success today

10 companies worldwide

Precision fermentation still an art

Quality
Certificated

95%

success fee in protein production

Fastest **Supply**

Unique Supply
from **LATAM**

Biotech

*is still inaccessible
in most of the world.*

Our portable

*low-cost kit brings
DNA innovation anywhere.*

Building a World of Possibilities with Synthetic Biology

SOL Platform

AI-driven protein engineering.
Accelerates discovery using Cell-free
system

NANOLINKER24

Nebulized therapy for ARDS. Market:
\$3.26B.

Growth factor

Invitrolink™ system for growth media
and improve cell activity boost

Our impact
