

mOon

Grape variety: Merlot rosé

Vinification: This wine from our best Bordeaux terroirs is dealcoholised by vacuum distillation at 40°C, thus preserving its hydro phase. Natural aromas are added to restore their typical character.

Tasting notes: This non-alcoholic wine is a subtle shade of pale colour, albeit slightly tinted, and delights the taste buds with its aromas of red fruit, typical of a sought-after rosé, accompanied by a touch of sweetness.

Food pairing: This wine goes perfectly with summer dishes such as seafood salads, grilled vegetables, sushi or marinated chicken kebabs. For a sweet touch, it can be accompanied by fruit desserts such as strawberry tart or red fruit sorbets.

Calories: 19 cal per 100 ml
