

## TEJAS DEVELOPMENT

# The right capabilities. One coordinated project.

Tejas connects technology specialists with organisations that want better services, richer experiences and new ways to create value.

## Our delivery logic

### Scout

Find technologies that fit the need.

### Structure

Define the architecture and partner roles.

### Integrate

Connect capabilities with existing systems.

### Deliver

Validate the experience and develop scale.

## A specialist ecosystem

Tejas orchestrates. Partners bring their expertise.

Guest identity and integration

Wallets and digital trust

Operations and commerce

Biometric payment options

Screen media distribution

Creative content and XR

Project roles and participation are agreed for each engagement.

**tejas.ro**

## CONNECTED EXPERIENCES

**People. Places.  
Possibilities.**

Technology orchestration  
by Tejas Development

## CAPABILITIES

### Technology with a purpose

#### Identity and trust

Digital credentials, wallet integration and optional biometric interactions.

#### Media and engagement

Digital signage, managed DOOH and contextual content.

#### Commerce and operations

Payments and service workflows connected to existing platforms.

#### AI and immersive experiences

Assisted communication, creative content, XR and digital spaces.

Each project combines only the capabilities its users and operators need.

## PROJECT CONCEPT

### Connected Hospitality

#### Your stay. A connected ecosystem.

Guest arrival, helpful media, payment and local experiences connect around the hotel and its destination.

Tejas coordinates the architecture, specialist partners and integration with hotel operations.

**A focused pilot validates one guest journey.**

## APPLICATIONS

### Connected across sectors

#### Hospitality

Guest services and destination experiences.

#### Retail

Product discovery, media and commerce.

#### Events

Registration, access and participation.

#### Mobility

Travel information and service access.

#### Culture

Stories, places and immersive encounters.

#### Education

Learning spaces and digital engagement.
