Headcount

Locations

Fincons Group is a **reliable partner** to design, implement and maintain Information Technology to enable business competitive advantage.

In January 2024, Fincons acquired a LA based company of 100+ people (50 based in USA and 50 based in the subsidiary company in India).

Fincons Group's role in R&D&I Projects

ICT Developer / Technology Expert

We offer strong expertise in all Web / Mobile related technologies, as well as Artificial Intelligence, Machine Learning, Block-Chain, IoT- based applications, big-data & analytics, cloud technologies, cyber-security, HbbTV

System Integrator

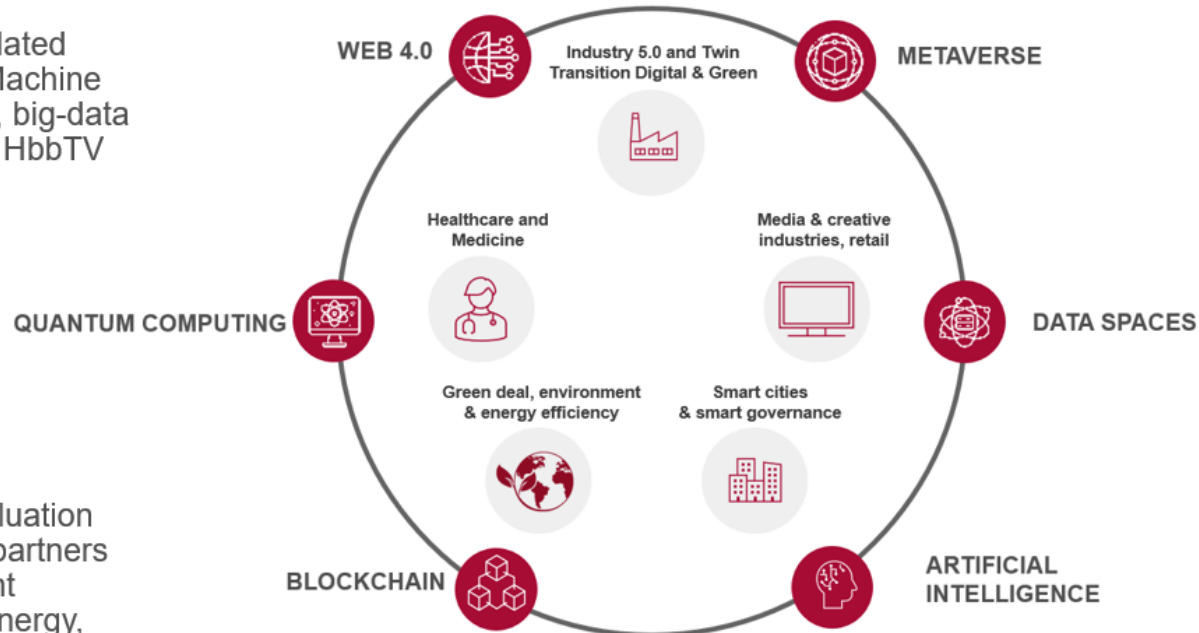

We take care of the integration of partners' developments into working system, including all necessary testing activities

Piloting / end-users

We support end-users in piloting and evaluation activities; we involve our customers and partners as end-users in the projects, from different sectors (manufacturing, TV, publishers, energy, etc..)

Exploitation and Dissemination

We contribute actively through participation to conferences and events at European scale; our goal is to bring R&D results on the market, so we invest in exploitation activities by involving necessary stakeholder (prospects, customers, marketing actions, etc..)
