MARPOL - A Legal Obligation for All Boaters & the Entire Marine Industry

MARPOL is a global anti-pollution convention which has been in force since the 1970s and applies to all vessels, including the leisure marine sector.

Annex V governs discharge of chemicals for example during cleaning in a marina or boatyard where run-off washes directly into the water. Products discharged must be Non-Harmful to the Marine Environment (Non-HME).

Green Claims Directive – New Era of Accountability (2026)

The new EU Green Claims Directive, expected Q2 2026, will make environmental claims illegal unless backed by factual, verifiable evidence. This framework is widely expected to be replicated across global markets, transforming how products are marketed.

The Old Guard

Most legacy marine valeting brands do not declare MARPOL Annex V compliance or claim their products are Non-HME and based on publicly available hazard classifications, most would not meet the criteria.

Oceans Assured™ - The Compliant, Evidence-Based Solution

The first fully comprehensive MARPOL Annex V compliant range covering both valeting and operational maintenance (applicable to all sectors or maritime including Leisure, Commercial and Off-Shore Power)

Developed in consultation with the International Maritime Organization (IMO), with official MARPOL guidance now being circulated globally through ICOMIA.

Digital Compliance Platform – Free, Transparent & Connected

Complete digital suite of product data, LCA reports, MSDS and compliance docs.
Live batch-code traceability and an Online tool to identify requirements for each vessel.
Generate and submit compliance and health & safety reports directly from the platform.
Free to use for businesses, marinas, boatyards, vessel operators and end users.

Packaging, Labelling & Traceability

Multilingual, QR-coded, UFI-coded and GS1-barcode labels with tear-off bottle labels for use on refill spray bottles.
High-quality reusable bottles made using 30% post-consumer recycled material.

Governmental & Industry Support - Backed by:

UK Government / Innovate UK
Ocean Conservation Trust
Supported by ICOMIA and global marine associations through industry-wide circulation of MARPOL guidance.

Industry Leading Margins: Distributor 38% · Retailer 37%

Oceans Assured™ uniquely combines full MARPOL compliance, digital reporting tools, and verified environmental performance that directly counts towards company Sustainability targets and Net Zero, creating a category-defining market position.

BOAT WASH PRO

ABOUT THIS PRODUCT

Boat Wash Pro is a premium all-over foaming wash-and-wax cleaner designed for fast, effective removal of dirt, grime, salt deposits and environmental contamination from most marine substrates. Its advanced anti-smear technology ensures a clean, streak-free finish, enhancing appearance while making routine maintenance easier.

THE FACTS

MARPOL ANNEX V COMPLIANT
EU AND UK REACH REGULATION COMPLIANT
30% PCR CONTAINER & FULLY RECYCLABLE
NON-HARMFUL TO AQUATIC LIFE
NON-HAZARDOUS
NOT IDENTIFIED AS A PBT SUBSTANCE
DESCRIBED IN ACCORDANCE WITH THE ICAS CODE

ALWAYS

Read all instructions and safety guidance prior to use
Try a small discreet test patch to ensure that the product is suitable for the specific application

INSTRUCTIONS

Wet the surface of the boat with clean water.
Dilute Boat Wash Pro as required and apply using a sponge, soft brush or wash mitt to generate a rich foam.
Work methodically across all surfaces, allowing the formulation to lift dirt and grime.
Rinse thoroughly with fresh water.
Dry with a clean microfibre cloth for a streak-free finish.

DECK MATE

ABOUT THIS PRODUCT

August Race™ DECK MATE is a highly effective, non-hazardous cleaner specifically formulated for the safe and gentle removal of dirt, grime and salt deposits from synthetic teak decking. Its controlled cleaning action lifts contamination without damaging the grain structure or altering the appearance of modern composite decking materials.

All products produced after 2025 have been reformulated to ensure they are non-harmful to the marine environment, fully MARPOL Annex V compliant and completely non-hazardous.

Proudly manufactured in the UK, DECK MATE delivers exceptional cleaning performance while supporting responsible environmental compliance.

THE FACTS

- MARPOL Annex V compliant
- EU & UK REACH regulation compliant
- Safe for synthetic teak
- Non-hazardous
- Non-toxic
- Non-harmful to aquatic life
- Fully recyclable container
- Described in accordance with the ICAS Code

INSTRUCTIONS

Spray DECK MATE directly onto the synthetic teak surface.
Using the sponge applicator provided or a soft bristle brush, work the product gently into the grain.
Wipe clean using a fresh microfibre cloth to lift residue and loosened dirt.
Rinse thoroughly with clean water to reveal a uniform, refreshed finish.
Repeat as required for heavily soiled areas.

LIQUID RIB

ABOUT THIS PRODUCT

Widely acknowledged as the best in class and used internationally by some of the worlds leading RIB builders. August Race Liquid Rib is capable of cleaning both Hypalon and PVC tubes and can truly bring your RIB back to life.

Products produced after 2025 have been reformulated to ensure that they are non-harmful to the marine environment and fully MARPOL compliant.

Liquid RIB is also now dilutable at a 1-1 ratio with fresh water for lighter operations and packaged in a fully recyclable jerry container with removable label section to apply to a recycled spray bottle to reduce plastic in waste.

THE FACTS

MARPOL ANNEX V COMPLIANT
EU AND UK REACH REGULATION COMPLIANT
FULLY RECYCLABLE CONTAINER
NON-HARMFUL TO AQUATIC LIFE
NON-HAZARDOUS
NOT IDENTIFIED AS A PBT SUBSTANCE
DESCRIBED IN ACCORDANCE WITH THE ICAS CODE

INSTRUCTIONS

Dilute up to 1 :1 (water:product) in a clean spray bottle or use neat for a deeper clean
Apply directly to the tube working on sections of no more than a metre at a time to ensure that the product does not dry out
Work in a circular motion with a clean microfibre cloth
Rinse thoroughly with fresh water after cleaning

LR SEALER UV

ABOUT THIS PRODUCT

LR Sealer UV is our next-generation, ultra high-performance RIB tube sealer, engineered to deliver exceptional UV protection across a wide range of materials, including smooth and fabric-impression finishes. A little goes a very long way — the formulation absorbs rapidly into the tube surface, providing an industry-leading shield against UV degradation while imparting an even, long-lasting, glossy finish.

All products produced after 2025 have been reformulated to ensure they are non-harmful to the marine environment, fully MARPOL Annex V compliant, and completely non-hazardous.

THE FACTS

- MARPOL Annex V compliant
- EU & UK REACH regulation compliant
- Non-harmful to aquatic life
- Non-hazardous
- Fully biodegradable
- Not classified as toxic
- Suitable for smooth and fabric-impression tubes
- Fully recyclable / re-usable container
- Described in accordance with the ICAS Code

INSTRUCTIONS

Ensure the tube is clean and completely dry before application.
Apply a small amount of LR Sealer UV directly onto a clean microfibre cloth.
Work the product evenly across the tube surface, allowing it to absorb fully.
Buff lightly with a clean cloth to achieve a uniform glossy finish.
Reapply periodically to maintain maximum UV protection and appearance.

ULTRA SHINE

ABOUT THIS PRODUCT

Ultra Shine is a premium high-gloss RIB tube coating designed specifically for smooth-finish inflatable tubes. Formulated for those who prefer a deep, reflective shine, Ultra Shine enhances the appearance of both Hypalon and PVC tubes, restoring clarity and delivering a long-lasting, showroom-quality finish.

All products produced after 2025 have been reformulated to ensure they are non-harmful to the marine environment, fully MARPOL Annex V compliant, and completely non-hazardous.

Ultra Shine is supplied in an easily recyclable, re-usable bottle with a removable label section to reduce plastic waste across operations.

THE FACTS

- MARPOL Annex V compliant
- EU & UK REACH regulation compliant
- Non-harmful to aquatic life
- Non-hazardous
- Not classified as toxic
- pH neutral
- Fully recyclable / re-usable container
- Described in accordance with the ICAS Code

INSTRUCTIONS

Ensure tubes are clean and dry before application.
Apply a small amount of Ultra Shine directly onto a clean microfibre cloth (do not spray directly onto the tube).
Work the coating evenly across the tube surface using smooth, controlled strokes.
Allow the product to settle briefly, then buff with a clean cloth to achieve maximum gloss.
Reapply as required to maintain an optimal high-shine finish.

BRIGHT COAT

ABOUT THIS PRODUCT

August Race™ Bright Coat is a high-strength, fast-acting de-stainer formulated specifically for gelcoat surfaces. Designed to tackle the most stubborn discolouration, Bright Coat rapidly removes yellowing, rust stains, water marks and mud staining, restoring clarity and brightness to tired surfaces.

Trusted across the marine industry, Bright Coat is approved by leading gelcoat manufacturer Scott Bader and used by some of the world's biggest boat brands.

All products produced after 2025 have been reformulated to ensure they are non-harmful to the marine environment, fully MARPOL Annex V compliant and completely non-hazardous.

THE FACTS

- MARPOL Annex V compliant
- EU & UK REACH regulation compliant
- Fully biodegradable
- VOC free
- Non-flammable
- Non-hazardous
- Non-toxic
- Not tested on animals
- Bottle and lid fully recyclable
- Described in accordance with the ICAS Code

INSTRUCTIONS

Ensure the surface is free from loose debris before application.
Apply Bright Coat carefully to the affected area using a clean brush or cloth.
Allow the product to work for a short period to break down staining (avoid drying).
Gently agitate if necessary, then rinse thoroughly with clean water.
Dry the surface and re-polish using Smooth Opacity UV for optimal shine and protection.

VINYL BRIGHT

ABOUT THIS PRODUCT

August Race™ Vinyl Bright is an unrivalled deep-restorative treatment designed to dramatically improve the appearance of old, dull or heavily weathered vinyl upholstery. Its powerful, fabric-safe formulation penetrates into the surface layer of the vinyl to lift ingrained dirt, revitalise colour and restore clarity — often producing outstanding results even on long-neglected upholstery.

All products produced after 2025 have been reformulated to ensure they are non-harmful to the marine environment, fully MARPOL Annex V compliant and completely non-hazardous.

THE FACTS

- MARPOL Annex V compliant
- EU & UK REACH regulation compliant
- Deep restorative vinyl treatment
- Dramatically improves aged or dull upholstery
- Non-hazardous
- Non-toxic
- Non-harmful to aquatic life
- Fully recyclable container
- Described in accordance with the ICAS Code

INSTRUCTIONS

Ensure the vinyl surface is free from loose debris before treatment.
Apply Vinyl Bright directly onto a clean microfibre cloth.
Work the product into the vinyl using firm, even strokes.
Rinse the treated area thoroughly with clean water to remove lifted residues.
Allow the upholstery to dry fully.
Apply AR Upholstery Protect UV using a soft cloth and buff to achieve a satin-sheen protective finish.

UPHOLSTERY PROTECT

ABOUT THIS PRODUCT

Our Marine Upholstery Water-Resist & Finish Treatment is a specialist formulation designed to enhance water resistance on marine seating, vinyl upholstery, Silvertex and other boat interior and exterior textiles. The advanced blend creates a durable hydrophobic layer that helps repel water, body oils and surface contamination while leaving a clean, smear-free, satin finish. Formulated to maintain the natural look and feel of premium marine upholstery, this treatment helps improve longevity and keep seating looking newer for longer.

All products produced after 2025 have been reformulated to ensure they are non-harmful to the marine environment, fully MARPOL Annex V compliant and completely non-hazardous.

THE FACTS

- MARPOL Annex V compliant
- EU & UK REACH regulation compliant
- Suitable for vinyl, Silvertex and marine seating
- Smear-free finish
- Water-resistant protective coating
- Non-toxic
- Non-hazardous
- Non-harmful to aquatic life
- Fully recyclable / re-usable bottle
- Described in accordance with the ICAS Code

INSTRUCTIONS

Ensure all upholstery is clean and completely dry before application.
Apply the product directly onto a clean microfibre cloth (avoid spraying directly onto seats where overspray may occur).
Wipe evenly across the upholstery surface using smooth, controlled strokes.
Allow the coating to settle for a short period, then buff lightly with a clean cloth to achieve a uniform, smear-free finish.

SUPER VALET

ABOUT THIS PRODUCT

August Race Super Valet is a rapid-action valeting spray wax designed to deliver an exceptional high-shine finish — fast. Formulated for use on most wipeable marine surfaces, Super Valet removes water spots, enhances gloss and leaves behind a smooth, protective layer. Its advanced antistatic formula actively reduces dust and grime build-up, helping to keep surfaces cleaner for longer. Ideal for regular use throughout the season to maintain a showroom-quality finish with minimal effort.

All products produced after 2025 have been reformulated to ensure they are non-harmful to the marine environment, fully MARPOL Annex V compliant and completely non-hazardous.

THE FACTS

- MARPOL Annex V compliant
- EU & UK REACH regulation compliant
- Fully biodegradable
- VOC free
- pH neutral
- Non-flammable
- Non-hazardous
- Not tested on animals
- Bottle and trigger fully recyclable
- Described in accordance with the ICAS Code

INSTRUCTIONS

Ensure the surface is clean and dry before application.
Spray Super Valet lightly onto the area or onto a clean microfibre cloth.
Wipe evenly using smooth, overlapping motions.
Buff to a high shine with a dry microfibre cloth.
For best results, use regularly to maintain gloss and prevent water spot build-up.

SMOOTH OPACITY UV

ABOUT THIS PRODUCT

August Race™ Smooth Opacity UV is a deep-treating, fluid-applied UV wax polish engineered to restore gloss to dull or weathered gelcoat surfaces while providing outstanding protection against UV degradation. With unrivalled ease of use, it delivers a smooth, reflective shine and long-lasting surface defence in a single treatment.

All products produced after 2025 have been reformulated to ensure they are non-harmful to the marine environment, fully MARPOL Annex V compliant and completely non-hazardous.

THE FACTS

- MARPOL Annex V compliant
- EU & UK REACH regulation compliant
- 100% biodegradable
- Non-hazardous
- Non-toxic
- Provides high-gloss UV-protective wax finish
- Approved by Scott Bader
- Used by leading global boat manufacturers
- Fully recyclable container
- Described in accordance with the ICAS Code

INSTRUCTIONS

Ensure the surface is clean, dry and free from oxidation or loose debris.
Apply Smooth Opacity UV directly onto a clean microfibre cloth or applicator pad.
Work evenly across the gelcoat in smooth, overlapping strokes.
Allow the product to bond and lightly haze.
Buff to a deep, high-gloss finish using a fresh microfibre cloth.
Reapply periodically throughout the season to maintain UV protection and shine.

GRP SEALER UV

ABOUT THIS PRODUCT

A highly hydrophobic, high-shine protective coating formulated specifically for fibreglass (GRP) boat hulls and surfaces. Developed as part of the Oceans Assured MARPOL-compliant range, GRP Sealer UV enhances gloss while forming a durable water-repellent barrier that helps protect against UV degradation, oxidation, and environmental contamination.

Designed to improve appearance and reduce surface wetting, GRP Sealer UV helps water bead and shed from treated surfaces, making routine cleaning easier and supporting long-term finish preservation on fibreglass boats operating in demanding marine environments.

THE FACTS

MARPOL ANNEX V COMPLIANT
EU AND UK REACH REGULATION COMPLIANT
30% PCR CONTAINER & FULLY RECYCLABLE
NON-HARMFUL TO AQUATIC LIFE
NON-HAZARDOUS
NOT IDENTIFIED AS A PBT SUBSTANCE
DESCRIBED IN ACCORDANCE WITH THE ICAS CODE

INSTRUCTIONS

Ensure the fibreglass surface is clean, dry, and free from contamination prior to application. Shake well before use.
Apply GRP Sealer UV evenly using a clean cloth, applicator pad, or low-pressure spray. Spread uniformly to achieve an even, high-gloss finish.
Allow to cure and dry naturally.
Buff lightly with a clean, dry cloth if required.
Reapply periodically depending on UV exposure and operational conditions.

TEAK GEL

ABOUT THIS PRODUCT

TEAK GEL is a safe, deep-penetrating treatment designed to gently restore the natural colour of teak decks and teak components. Its controlled action lifts surface discolouration, greying and environmental staining without damaging the grain or structure of the timber.

All products produced after 2025 have been reformulated to ensure they are non-harmful to the marine environment, fully MARPOL Annex V compliant and completely non-hazardous.

Packaged in a fully recyclable 1-litre bottle, TEAK GEL delivers powerful restorative performance while maintaining excellent environmental responsibility.

THE FACTS

- MARPOL Annex V compliant
- EU & UK REACH regulation compliant
- Non-hazardous
- Non-harmful to aquatic life
- VOC free
- Contains biodegradable detergents
- Fully recyclable / re-usable bottle
- Described in accordance with the ICAS Code

INSTRUCTIONS

Ensure the teak surface is free from loose debris before treatment.

Apply TEAK GEL liberally and out of direct sunlight using a clean paintbrush, working in sections of approximately 1 m² at a time.

Allow the product to activate for up to 20 minutes, ensuring it does not dry on the surface.

Rinse thoroughly with plenty of clean water to remove all residual product.

Move on to the next section and repeat the process until the surface is fully treated.

After cleaning, we recommend applying a high-quality teak oil to help protect the timber and maintain colour.

SPOT OFF

ABOUT THIS PRODUCT

August Race™ Spot Off is a low-foaming mould and mildew spot remover designed for fast, effective cleaning across a wide variety of marine surfaces, including RIB tubes, vinyl upholstery, GRP, paintwork and other wipeable areas. Its advanced formulation is significantly less aggressive than conventional bleaching agents, delivering outstanding cleaning performance without compromising material integrity. Spot Off works rapidly to break down mould spots, organic staining and dark surface blemishes, restoring a fresher, cleaner appearance in minutes.

All products produced after 2025 have been reformulated to ensure they are non-harmful to the marine environment, fully MARPOL Annex V compliant and completely non-hazardous.

THE FACTS

- MARPOL Annex V compliant
- EU & UK REACH regulation compliant
- Low-foaming mould spot remover
- Less aggressive than traditional bleaching agents
- Suitable for RIB tubes, vinyl, paint and GRP
- Non-hazardous
- Non-harmful to aquatic life
- Fully recyclable container

INSTRUCTIONS

- Identify areas affected by mould spots or surface staining.
- Apply Spot Off directly to the affected area or to a clean cloth, depending on surface sensitivity.
- Allow the product to work for a short period to break down staining.
- Wipe or lightly agitate with a clean cloth or soft brush.
- Rinse thoroughly with fresh water.
- Repeat as required for stubborn or older spots.

DECK WASH

ABOUT THIS PRODUCT

A professional-grade concentrated deck cleaner formulated to tackle dirt, salt deposits, and general soiling from marine decks and walkways. Designed as part of the Oceans Assured MARPOL-compliant range, this cleaner can be diluted up to 50:1 with water, delivering effective cleaning performance while remaining safe for regular use. Ideal for maintaining a clean, bright deck surface without damaging finishes.

THE FACTS

MARPOL ANNEX V COMPLIANT
EU AND UK REACH REGULATION COMPLIANT
30% PCR CONTAINER & FULLY RECYCLABLE
NON-HARMFUL TO AQUATIC LIFE
NON-HAZARDOUS
KILLS BACTERIA
NOT IDENTIFIED AS A PBT SUBSTANCE
DESCRIBED IN ACCORDANCE WITH THE ICAS CODE

INSTRUCTIONS

Dilute concentrate at 10:1 (water:product) in a clean spray bottle and shake to mix.
Spray directly onto the surface and wipe with a clean cloth or sponge.
For stubborn limescale or heavily soiled areas, allow the product to sit before wiping.
Rinse with fresh water if required, especially on food-contact surfaces.

ALWAYS

Avoid use on untreated wood or delicate varnished surfaces.
Test on a small inconspicuous area to ensure suitability before full application.
Store in a cool, dry place away from direct heat and sunlight.
Dispose of container in accordance with MARPOL Annex V requirements.

GLASS & MIRROR

ABOUT THIS PRODUCT

A concentrated cleaner formulated for clear, streak-free results on windows, mirrors, and acrylic surfaces in marine environments. Part of the Oceans Assured MARPOL-compliant range, this cleaner is diluted 20:1 with water in a spray bottle to remove salt spray, smudges, fingerprints, and light soils, restoring a brilliant shine without hazing or scratching. The formula is dye-free, helping to prevent accidental staining or contamination of upholstery and interior fabrics.

THE FACTS

MARPOL ANNEX V COMPLIANT
EU AND UK REACH REGULATION COMPLIANT
30% PCR CONTAINER & FULLY RECYCLABLE
NON-HARMFUL TO AQUATIC LIFE
NON-HAZARDOUS
NOT IDENTIFIED AS A PBT SUBSTANCE
DESCRIBED IN ACCORDANCE WITH THE ICAS CODE

INSTRUCTIONS

Dilute concentrate at 20:1 (water:product) in a clean spray bottle and shake to mix.
Spray directly onto the glass, mirror, or Perspex surface.
Wipe with a clean, dry microfibre cloth or paper towel until clear and streak-free.
For stubborn marks, repeat application as required.

ALWAYS

Always try a small discreet test patch before fully applying to ensure suitability.
Do not use on hot surfaces or in direct sunlight.
Avoid prolonged contact with polycarbonate and other soft plastics.
Store in a cool, dry place away from direct heat and sunlight.
Dispose of container in accordance with MARPOL Annex V requirements.

FAB-RESTORE

ABOUT THIS PRODUCT

FAB-RESTORE is a non-toxic, high-performance cleaner designed for the quick and effective cleaning of boat sails, canopies, sprayhoods and marine canvas. Safe on stitching and marine textiles, FAB-RESTORE is capable of removing salt deposits, water marks, mildew residues and general dirt without degrading fabric strength or finish.

All products produced after 2025 have been reformulated to ensure they are non-harmful to the marine environment, fully MARPOL Annex V compliant, and completely non-hazardous.

THE FACTS

- MARPOL Annex V compliant
- EU & UK REACH regulation compliant
- Fully biodegradable
- VOC free
- Non-hazardous
- Non-flammable
- Non-toxic
- Not tested on animals
- Bottle and lid fully recyclable
- Described in accordance with the ICAS Code

INSTRUCTIONS

Rinse the sail or canvas lightly to remove loose debris.
Apply FAB-RESTORE evenly to the surface using a spray bottle or sponge.
Work into the fabric using a soft brush or cloth, focusing on stained or salt-loaded areas.
Allow a short dwell time, then rinse thoroughly with fresh water.
Allow to dry fully before applying August Race SAIL PROTECT for re-waterproofing and UV defence.

SAIL PROTECT

ABOUT THIS PRODUCT

SAIL-PROTECT is an environmentally responsible waterproofing and protective treatment designed specifically for boat sails, canvaswork, sprayhoods, biminis and marine textiles. The advanced formulation creates a durable hydrophobic barrier that repels water, enhances fabric longevity, and helps reduce staining and UV-related wear — all without altering the natural feel of the material.

All products produced after 2025 have been reformulated to ensure they are non-harmful to the marine environment, fully MARPOL Annex V compliant, and completely non-hazardous.

THE FACTS

- MARPOL Annex V compliant
- EU & UK REACH regulation compliant
- Non-hazardous
- Non-toxic
- Non-harmful to aquatic life
- VOC free
- Contains biodegradable detergents
- Fully recyclable / re-usable bottle and trigger spray
- Suitable for sails, canvas and marine textiles
- Described in accordance with the ICAS Code

INSTRUCTIONS

Ensure all sails, canvas or textiles are clean and completely dry before application. Shake the bottle well. Spray SAIL-PROTECT evenly across the fabric from approximately 15–20 cm away. Allow the treatment to dry naturally at ambient temperature. For older or more porous materials, apply a second coat once the first coat is fully dry to achieve maximum waterproofing. Allow the fabric to cure fully before exposing it to water or stowing.

FRESH

THE PRODUCT

A spray-applied treatment designed to eliminate unpleasant odours from a wide range of marine surfaces, including upholstery, carpets, headlinings and soft furnishings. The advanced formulation works deep into fibres and porous materials, neutralising odour-causing compounds at their source rather than masking them.

Once treated, surfaces are left with a clean, pleasant fresh fragrance, helping maintain a comfortable and inviting onboard environment.

All products produced after 2025 have been reformulated to ensure they are non-harmful to the marine environment, fully MARPOL Annex V compliant and completely non-hazardous.

THE FACTS

- MARPOL Annex V compliant
- EU & UK REACH regulation compliant
- Non-harmful to aquatic life
- Non-hazardous
- pH neutral
- Suitable for upholstery, carpets & headlinings
- Fully recyclable / re-usable bottle and trigger spray
- Described in accordance with the ICAS Code

INSTRUCTIONS

- Identify the area affected by unwanted odours.
- Spray FRESH evenly across the surface using the trigger applicator.
- Allow the product to penetrate thoroughly into the material.
- For persistent odours, lightly agitate with a soft brush or cloth to help the product reach deeper layers.
- Allow to dry naturally at ambient temperature.
- Repeat as necessary for heavily affected or porous areas.

FENDER CLEAN

THE PRODUCT

A highly effective cleaner formulated to remove carbon deposits, salt build-up and greening from inflatable boat fenders. Its powerful but non-harmful blend cuts through marine contamination with ease, often restoring fenders to a near-new appearance without damaging the material surface.

All products produced after 2025 have been reformulated to ensure they are non-harmful to the marine environment, fully MARPOL Annex V compliant, and completely non-hazardous.

Manufactured in the UK and packaged in fully recyclable containers, FENDER-CLEAN combines exceptional cleaning performance with responsible environmental credentials.

THE FACTS

- MARPOL Annex V compliant
- EU & UK REACH regulation compliant
- Biodegradable detergents
- Non-hazardous
- Non-flammable
- Non-toxic
- Not tested on animals
- Bottle and lid fully recyclable
- Described in accordance with the ICAS Code

INSTRUCTIONS

Rinse the fender lightly to remove loose surface contamination.
Apply FENDER-CLEAN directly to the area to be treated.
Work in circular motions using a clean cloth or soft brush, focusing on carbon and greening deposits.
For heavier staining, allow the product to dwell briefly before agitation.
Rinse thoroughly with fresh water to reveal a clean, restored finish.

STAIN - LESS

ABOUT THIS PRODUCT

A ready-to-use stainless steel cleaner formulated to remove salt deposits, fingerprints, water marks, and general surface contamination from marine-grade stainless steel. Developed as part of the Oceans Assured MARPOL-compliant range, stain-LESS is designed for safe and effective cleaning of stainless fittings while helping to restore a clean, uniform finish.

Suitable for use on railings, stanchions, cleats, fastenings, ladders, and other exposed stainless steel components, stain-LESS lifts contamination without harsh abrasion and helps maintain the appearance of stainless steel in demanding marine environments.

THE FACTS

MARPOL ANNEX V COMPLIANT
EU AND UK REACH REGULATION COMPLIANT
30% PCR CONTAINER & FULLY RECYCLABLE
NON-HARMFUL TO AQUATIC LIFE
NON-HAZARDOUS
NOT IDENTIFIED AS A PBT SUBSTANCE
DESCRIBED IN ACCORDANCE WITH THE ICAS CODE

INSTRUCTIONS

Ensure the stainless steel surface is cool and free from loose debris.
Spray stain-LESS directly onto the surface or onto a clean cloth.
Wipe evenly across the surface to remove contamination.
Buff lightly with a clean, dry cloth if required.
Rinse with clean water where appropriate, particularly in exposed marine areas.
Repeat application as necessary for heavily contaminated surfaces.

DINGHY WASH

ABOUT THIS PRODUCT

August Race Dinghy Wash has been specifically formulated for the cleaning and maintenance of both freshwater and ocean-going sailing dinghies. Its advanced non-toxic blend is fast-acting and highly effective at removing salt deposits, carbon marks, light grease and general surface contamination without damaging sensitive materials.

All products produced after 2025 have been reformulated to ensure they are non-harmful to the marine environment, fully MARPOL Annex V compliant, and completely non-hazardous.

Supplied in an easily recyclable 500ml trigger-spray bottle, Dinghy Wash delivers powerful cleaning performance while supporting responsible environmental practice.

THE FACTS

- MARPOL Annex V compliant
- EU & UK REACH regulation compliant
- Non-harmful to aquatic life
- Non-hazardous
- Non-toxic
- pH neutral
- Safe for regular use
- Fully recyclable / re-usable bottle and trigger spray
- Described in accordance with the ICAS Code

INSTRUCTIONS

- Rinse the dinghy lightly to remove loose surface debris.
- Spray Dinghy Wash directly onto the surface using the trigger applicator.
- Work the product over the area using a clean microfibre cloth or soft brush.
- Allow a short dwell time for stubborn salt or carbon deposits.
- Rinse thoroughly with fresh water to reveal a clean, refreshed finish.
- Repeat as required for heavily used or salt-loaded areas.

DINGHY SHINE UV

ABOUT THIS PRODUCT

Dinghy UV Shine is a specialist UV protection coating formulated specifically for sailing dinghies and small craft. Blended with advanced wax components, it delivers a durable, high-shine finish while helping to protect the surface from UV degradation and environmental wear.

All products produced after 2025 have been reformulated to ensure they are non-harmful to the marine environment, fully MARPOL Annex V compliant, and completely non-hazardous.

Packaged in easily recyclable containers, Dinghy UV Shine supports a reduced environmental footprint without compromising performance.

THE FACTS

- MARPOL Annex V compliant
- EU & UK REACH regulation compliant
- Non-harmful to aquatic life
- Non-hazardous
- Non-toxic
- Non-flammable
- Not tested on animals
- High-shine protective wax blend
- Fully recyclable / re-usable container
- Described in accordance with the ICAS Code

INSTRUCTIONS

Ensure all surfaces are clean and dry before application.
Apply Dinghy UV Shine directly onto a clean microfibre cloth.
Work evenly across the surface using smooth, overlapping strokes.
Allow the coating to bond, then buff lightly with a clean cloth to enhance the shine.
Reapply periodically to maintain UV protection and glossy appearance.

SKI CLEAN

ABOUT THIS PRODUCT

A concentrated cleaner formulated specifically for jet skis and personal watercraft (PWC), designed to remove salt deposits, fuel residue, organic staining, and general operational grime without damaging painted, gelcoat, or composite surfaces. Developed as part of the Oceans Assured MARPOL-compliant range, Jet Ski KLEAN delivers effective cleaning performance while remaining safe for use in marine environments.

Jet Ski KLEAN can be diluted up to 50:1 with water, depending on the degree of soiling, making it suitable for routine wash-downs as well as heavier cleaning tasks on jet skis and other personal watercraft.

THE FACTS

MARPOL ANNEX V COMPLIANT
EU AND UK REACH REGULATION COMPLIANT
30% PCR CONTAINER & FULLY RECYCLABLE
NON-HARMFUL TO AQUATIC LIFE
NON-HAZARDOUS
NOT IDENTIFIED AS A PBT SUBSTANCE
DESCRIBED IN ACCORDANCE WITH THE ICAS CODE

INSTRUCTIONS

Dilute Jet Ski KLEAN up to 50:1 (water:product) depending on the degree of soiling.
Apply the solution using a sponge, soft brush, or low-pressure spray.
Allow the product to dwell briefly to lift contamination.
Agitate lightly if required.
Rinse thoroughly with clean water.
Allow the surface to dry before storage or use.

SKI SHINE

ABOUT THIS PRODUCT

A ready-to-use detailing polish spray formulated to enhance gloss and restore a clean, high-shine finish on jet skis and personal watercraft (PWC). Developed as part of the Oceans Assured MARPOL-compliant range, Ski SHINE lifts light surface marks, fingerprints, water spotting, and smears while leaving a smooth, polished appearance.

Designed for quick application between washes, Ski SHINE is ideal for maintaining the appearance of gelcoat, painted, and composite surfaces on jet skis without heavy polishing or abrasion.

THE FACTS

MARPOL ANNEX V COMPLIANT

SUP-A-CLEAN

ABOUT THIS PRODUCT

A concentrated cleaner formulated specifically for the safe and effective cleaning of stand-up paddleboards and associated equipment. Designed to remove salt deposits, dirt, algae, sunscreen residues, and general surface grime from SUP boards without damaging finishes or materials. Developed as part of the Oceans Assured MARPOL-compliant range, this cleaner is suitable for routine use in marine and coastal environments.

SUP – A Clean can be diluted up to 50:1 with water for economical day-to-day cleaning or used at stronger dilutions for heavier contamination, helping to maintain board appearance and performance while remaining non-harmful to the marine environment.

THE FACTS

MARPOL ANNEX V COMPLIANT

SUP PROTECT

ABOUT THIS PRODUCT

A ready-to-use protective coating formulated specifically for stand-up paddleboards and associated equipment. Designed to leave a durable protective finish, SUP Protect helps repel water, salt, dirt, and surface contamination while enhancing appearance and aiding ongoing maintenance.

Developed as part of the Oceans Assured MARPOL-compliant range, SUP Protect forms a light, non-greasy protective layer that helps reduce salt adhesion, staining, and environmental wear caused by repeated exposure to marine and coastal conditions. Suitable for use on SUP boards, fins, and non-porous surfaces, it supports long-term surface care without harming the marine environment.

THE FACTS

POLY PROTECT

ABOUT THIS PRODUCT

A specialist UV protection spray formulated to protect and preserve polyethylene (PE) boat hulls and surfaces from UV degradation, oxidation, and colour fade. Developed as part of the Oceans Assured MARPOL-compliant range, Poly PROTECT is designed to restore appearance while forming a protective barrier that helps slow long-term environmental damage caused by sun exposure.

Suitable for rotomoulded polyethylene boats, tenders, kayaks, workboats, and small craft, Poly PROTECT enhances surface finish without leaving a greasy residue and helps reduce chalking and surface dulling commonly associated with prolonged UV exposure.

THE FACTS

MARPOL ANNEX V COMPLIANT
EU AND UK REACH REGULATION COMPLIANT
30% PCR CONTAINER & FULLY RECYCLABLE
NON-HARMFUL TO AQUATIC LIFE
NON-HAZARDOUS
NOT IDENTIFIED AS A PBT SUBSTANCE
DESCRIBED IN ACCORDANCE WITH THE ICAS CODE

INSTRUCTIONS

Ensure the polyethylene surface is clean and dry prior to application.
Shake well before use.
Apply Poly PROTECT evenly using a clean cloth, sponge, or low-pressure spray.
Spread uniformly across the surface to ensure full coverage.
Allow to dry naturally.
Buff lightly with a clean, dry cloth if required to even out finish.
Reapply periodically depending on UV exposure and operational conditions.

KAYAK KLEAN STEP 1

ABOUT THIS PRODUCT

A concentrated cleaner formulated specifically for kayaks and small polyethylene watercraft, designed to remove dirt, salt deposits, organic staining, and general operational grime without damaging or degrading the surface. Developed as part of the Oceans Assured MARPOL-compliant range, Kayak KLEAN STEP 1 delivers effective cleaning performance while remaining safe for use in marine environments.

Kayak KLEAN STEP 1 can be diluted up to 50:1 with water, depending on the degree of soiling, making it suitable for routine wash-downs as well as heavier cleaning tasks on kayaks, sit-on-top craft, canoes, and other small leisure watercraft.

THE FACTS

MARPOL ANNEX V COMPLIANT

EU AND UK REACH REGULATION COMPLIANT

30% PCR CONTAINER & FULLY RECYCLABLE

NON-HARMFUL TO AQUATIC LIFE

NON-HAZARDOUS

NOT IDENTIFIED AS A PBT SUBSTANCE

DESCRIBED IN ACCORDANCE WITH THE ICAS CODE

INSTRUCTIONS

Dilute Kayak KLEAN STEP 1 up to 50:1 (water:product) depending on the degree of soiling.

Apply the solution using a sponge, soft brush, or low-pressure spray.

Allow the product to dwell briefly to lift dirt and contamination.

Agitate lightly if required.

Rinse thoroughly with clean water.

Allow the surface to dry before use or storage.

KAYAK KLEAN STEP 2

ABOUT THIS PRODUCT

A ready-to-use UV protection spray formulated to protect and preserve kayaks and small polyethylene watercraft from UV degradation, oxidation, and colour fade. Developed as part of the Oceans Assured MARPOL-compliant range, Kayak CLEAN – Step 2 enhances appearance while forming a protective barrier that helps slow long-term surface deterioration caused by sun exposure.

Designed to be used after cleaning with Kayak KLEAN, this product helps maintain the finish of kayaks, sit-on-top craft, and other small leisure watercraft without leaving a greasy residue.

THE FACTS

MARPOL ANNEX V COMPLIANT
EU AND UK REACH REGULATION COMPLIANT
30% PCR CONTAINER & FULLY RECYCLABLE

TRAILER RESTORE

ABOUT THIS PRODUCT

August Race Trailer Restore is the ultimate restorer for bringing boat trailers back to life. Specially formulated and developed in conjunction with some of the industry's leading trailer manufacturers, it has quickly become an essential product in every boater's maintenance toolkit. Trailer Restore is engineered to break down carbon staining, rust marks and salt tarnishing, delivering a dramatically cleaner, brighter finish—fast. Ideal for regular upkeep or revitalising trailers that have suffered from environmental exposure or seasonal build-up.

All products produced after 2025 have been reformulated to ensure they are non-harmful to the marine environment, fully MARPOL Annex V compliant and completely non-hazardous.

THE FACTS

- MARPOL Annex V compliant
- EU & UK REACH regulation compliant
- Removes carbon staining, rust marks & salt tarnishing
- Non-hazardous
- Non-toxic
- Non-harmful to aquatic life
- Fully recyclable container
- Described in accordance with the ICAS Code

INSTRUCTIONS

Ensure the trailer surface is free from loose debris before application.
Apply Trailer Restore generously using a clean paintbrush.
Work over affected areas, allowing the product to break down staining and tarnish.
For heavier contamination, allow a short dwell time before brushing lightly.
Rinse thoroughly with fresh water to reveal a restored, clean finish.
Follow with August Race Trailer Protect for ongoing protection and resistance to future staining.

3484689	25 LITRE

TRAILER PROTECT

ABOUT THIS PRODUCT

August Race Trailer Protect is the industry-leading treatment for helping prevent staining, oxidation and rust marking on bare metal boat trailers. Developed in collaboration with several of the marine sector's most respected trailer manufacturers, Trailer Protect has become a trusted staple among boat owners and service professionals.

The advanced protective formulation bonds to the surface to create a durable barrier against contaminants, road grime, salt and weathering—helping maintain trailer condition and prolonging metal life.

All products produced after 2025 have been reformulated to ensure they are non-harmful to the marine environment, fully MARPOL Annex V compliant and completely non-hazardous.

THE FACTS

- MARPOL Annex V compliant
- EU & UK REACH regulation compliant
- Non-hazardous
- Non-toxic
- Non-harmful to aquatic life
- Helps prevent staining and rust marking
- Fully recyclable container
- Described in accordance with the ICAS Code

INSTRUCTIONS

Clean the trailer thoroughly using AR Trailer Restore before application.
Ensure the metal surface is completely dry.
Apply extremely sparingly using the AR professional microfibre cloth (available separately).
Work the product evenly across the metal surface, focusing on exposed or previously affected areas.
Allow to settle and bond naturally — do not over-apply.

TOILET CLEANER

ABOUT THIS PRODUCT

A high-performance toilet cleaner and sanitiser developed for marine applications. Part of the Oceans Assured MARPOL-compliant range. It effectively removes limescale, staining, and organic deposits from toilet bowls, pipes, and black-water systems while providing sanitising action. Safe for use on most marine toilet materials, including porcelain, ceramic, and plastic.

THE FACTS

MARPOL ANNEX V COMPLIANT

EU AND UK REACH REGULATION COMPLIANT

30% PCR CONTAINER & FULLY RECYCLABLE

NON-HARMFUL TO AQUATIC LIFE

NON-HAZARDOUS

KILLS BACTERIA

NOT IDENTIFIED AS A PBT SUBSTANCE

DESCRIBED IN ACCORDANCE WITH THE ICAS CODE

INSTRUCTIONS

Dilute concentrate at 10:1 (water:product) in a clean spray bottle or applicator.

Apply directly to the inside of the bowl, seat, or surrounding surfaces as required.

For limescale, staining, or odour build-up, allow to sit before scrubbing with a toilet brush.

Flush thoroughly with fresh water after cleaning

ALWAYS

Avoid prolonged contact with sensitive materials (e.g., natural stone, wood, or aluminium)

Test on a small inconspicuous area before full application.

Store in a cool, dry place away from direct heat and sunlight.

Dispose of container in accordance with MARPOL Annex V requirements.

SPRAY CLEAN

ABOUT THIS PRODUCT

Oceans Assured™ Spray Clean is a versatile, multipurpose cleaner and detailer designed for everyday cleaning and light maintenance across all areas of a boat. Developed as part of the Oceans Assured™ MARPOL-compliant range, Spray Clean safely removes dirt, grime, fingerprints, light grease, and general surface contamination without leaving residues or streaks.

Suitable for use on fibreglass, gelcoat, painted surfaces, plastics, vinyl, stainless steel, glass, and interior fittings, Spray Clean is ideal for routine interior and exterior cleaning. The formulation can be used ready-to-use for heavier soiling or diluted up to 50:1 with fresh water for economical, day-to-day maintenance and wipe-down tasks.

THE FACTS

- MARPOL ANNEX V COMPLIANT
- EU AND UK REACH REGULATION COMPLIANT
- 30% PCR CONTAINER & FULLY RECYCLABLE
- NON-HARMFUL TO AQUATIC LIFE
- NON-HAZARDOUS
- NOT IDENTIFIED AS A PBT SUBSTANCE

INSTRUCTIONS

General Cleaning and Detailing:

For heavier soiling, use Spray Clean neat or lightly diluted.

For routine cleaning, dilute up to 50:1 (water:product) in a clean spray bottle.

Spray directly onto the surface or onto a clean microfibre cloth.

Wipe evenly to lift contamination and buff dry with a clean cloth if required.

ROPE RESTORE

ABOUT THIS PRODUCT

A concentrated rope cleaner and brightener formulated to lift dirt, salt deposits, organic staining, and general grime from marine ropes and lines. Developed as part of the Oceans Assured MARPOL-compliant range, Rope Restore is designed for safe and effective cleaning of synthetic and natural fibre ropes without degrading fibres or finishes.

The product is diluted with water and used as a soak treatment, allowing contaminants to be released from within the rope structure. Ideal for sheets, halyards, dock lines, anchor warps, and general deck ropework, Rope Restore helps return ropes to a cleaner, fresher appearance while extending service life.

THE FACTS

MARPOL ANNEX V COMPLIANT
EU AND UK REACH REGULATION COMPLIANT
30% PCR CONTAINER & FULLY RECYCLABLE
NON-HARMFUL TO AQUATIC LIFE
NON-HAZARDOUS
NOT IDENTIFIED AS A PBT SUBSTANCE
DESCRIBED IN ACCORDANCE WITH THE ICAS CODE

INSTRUCTIONS

Dilute Rope Restore at 50:1 (water:product) in a suitable bucket or container.
Fully submerge the rope in the solution.
Allow to soak for up to 40 minutes, depending on contamination level.
Agitate occasionally to help release ingrained dirt and salt.
Remove rope and rinse thoroughly with clean fresh water.
Allow rope to dry completely before reuse or stowage.

BIO-D ANTIFREEZE

THE PRODUCT

A non-toxic, biodegradable antifreeze designed for the safe winterisation of onboard potable water systems, toilets, washdown lines, and ancillary circuits. Developed as part of the Oceans Assured™ MARPOL-compliant range, this formulation is based on food-grade propylene glycol and glycerin, combined with low-toxicity corrosion inhibitors and preservatives. It is free from nitrites, amines, phosphates, borates, and azoles, ensuring it is non-hazardous to aquatic life and safe for both marine and leisure use. Suitable for yachts, RIBs, workboats, and RV/camper systems, it provides freeze/burst protection down to -50 °C (depending on dilution).

THE FACTS

MARPOL ANNEX V COMPLIANT (packaging & disposal)
EU AND UK REACH REGULATION COMPLIANT
COMPLIES WITH EU DETERGENT REGULATION (biodegradability of surfactant system where relevant)
ISO 22241 principles: corrosion inhibition without nitrite/amine/borate
30% PCR CONTAINER & FULLY RECYCLABLE
NON-HAZARDOUS / NON-TOXIC
NOT IDENTIFIED AS A PBT SUBSTANCE
FORMULATED IN ACCORDANCE WITH THE ICAS CODE

DIRECTIONS

Drain water system prior to application.
Fill lines, tanks, and toilets with neat product until coloured fluid emerges at outlets.
Leave in place over winter lay-up.
Flush thoroughly with fresh water before recommissioning for potable use.
Check freeze protection level with a refractometer or hydrometer if diluted.

SALT OFF

ABOUT THIS PRODUCT

Salt Off is a purpose-formulated salt neutraliser designed to safely and effectively remove salt deposits from fibreglass boats, decks, fittings, and marine surfaces. Developed as part of the Oceans Assured™ MARPOL-compliant range, Salt Off helps prevent corrosion, staining, and long-term surface degradation caused by salt build-up.

Salt Off can be spray-applied for routine exterior wash-downs and surface maintenance, or used via a hose-mounted flush mixer to flush salt residues from outboard engines.

THE FACTS

- MARPOL ANNEX V COMPLIANT
- EU AND UK REACH REGULATION COMPLIANT
- 30% PCR CONTAINER & FULLY RECYCLABLE
- NON-HARMFUL TO AQUATIC LIFE
- NOT IDENTIFIED AS A PBT SUBSTANCE

INSTRUCTIONS

Spray Application (External Surfaces):

Dilute Salt Off up to 10:1 (water:product) depending on salt build-up.

Apply directly to fibreglass, gelcoat, painted surfaces, metals, and fittings using a spray bottle.

Allow to dwell briefly to dissolve salt deposits.

Rinse thoroughly with fresh water.

Engine Flush (Hose-Mounted Flush Mixer):

Attach the flush mixer to a freshwater hose following the manufacturer's instructions.

Set the dilution rate as recommended by the flush mixer manufacturer.

Run the engine or flushing system to allow Salt Off to circulate through the cooling system.

Flush thoroughly with clean fresh water after treatment.

GALLEY DEGREASER

ABOUT THIS PRODUCT

Oceans Assured™ Galley Degreaser is a high-performance yet non-harmful degreasing cleaner formulated specifically for use in marine galley environments. Designed to effectively break down grease, oils, food residues, and general galley contamination, it delivers powerful cleaning results while remaining safe for use onboard vessels.

Developed as part of the Oceans Assured™ MARPOL-compliant range, Galley Degreaser is suitable for use on worktops, cookers, hobs, extractor hoods, sinks, stainless steel surfaces, tiles, and other galley fittings. The formulation can be used neat for heavy grease build-up or diluted up to 50:1 with fresh water for routine galley cleaning and maintenance.

THE FACTS

- MARPOL ANNEX V COMPLIANT
- EU AND UK REACH REGULATION COMPLIANT
- 30% PCR CONTAINER & FULLY RECYCLABLE
- NON-HARMFUL TO AQUATIC LIFE
- NOT IDENTIFIED AS A PBT SUBSTANCE

INSTRUCTIONS

Heavy Degreasing:

Use Galley Degreaser neat or lightly diluted depending on the level of contamination. Apply directly to the surface or to a cloth or sponge. Allow a short dwell time to break down grease. Wipe clean and rinse with fresh water if required.

Routine Cleaning:

Dilute up to 50:1 (water:product) in a spray bottle or cleaning container. Apply to surfaces and wipe clean with a cloth or sponge. Rinse food-contact surfaces thoroughly with fresh water after cleaning.

GALLEY RINSE AID

ABOUT THIS PRODUCT

A concentrated dishwasher rinse aid formulated to deliver spotless, streak-free results. Designed as part of the Oceans Assured™ MARPOL-compliant range, this rinse aid uses biodegradable, non-harmful ingredients to promote rapid drying, reduce water spotting, and leave dishes and glassware sparkling clean. Suitable for both commercial and domestic dishwashing machines, it provides reliable performance while supporting marine environmental protection.

THE FACTS

MARPOL ANNEX V COMPLIANT
EU AND UK REACH REGULATION COMPLIANT
30% PCR CONTAINER & FULLY RECYCLABLE
NON-HARMFUL TO AQUATIC LIFE
NON-HAZARDOUS
NOT IDENTIFIED AS A PBT SUBSTANCE
DESCRIBED IN ACCORDANCE WITH THE ICAS CODE

INSTRUCTIONS

Fill the dishwasher rinse aid dispenser according to the manufacturer's recommendations. Ensure the dispenser is kept topped up for consistent drying and streak-free results. Run dishwasher on the appropriate cycle for load type and soil level. For optimum performance, also maintain recommended dishwasher salt levels.

ALWAYS

Avoid contact with eyes; rinse immediately if contact occurs.
Store in a cool, dry place away from direct heat and sunlight.
Dispose of container in accordance with MARPOL Annex V requirements.

MACHINE WASH

ABOUT THIS PRODUCT

A concentrated dishwasher detergent formulated to deliver powerful cleaning performance while protecting the marine environment. Developed as part of the Oceans Assured™ MARPOL-compliant range, this detergent uses biodegradable surfactants and non-harmful ingredients to remove grease, food residues, and stains effectively. Suitable for use in both commercial and domestic dishwashing machines, it ensures dishes, utensils, and glassware are left hygienically clean and fresh with every cycle.

THE FACTS

MARPOL ANNEX V COMPLIANT
EU AND UK REACH REGULATION COMPLIANT
30% PCR CONTAINER & FULLY RECYCLABLE
NON-HARMFUL TO AQUATIC LIFE
NON-HAZARDOUS
NOT IDENTIFIED AS A PBT SUBSTANCE
DESCRIBED IN ACCORDANCE WITH THE ICAS CODE

INSTRUCTIONS

Add detergent to the dishwasher dispenser as per the manufacturer's guidelines.
For normal loads, use the recommended standard dose.
For heavily soiled dishes, select an intensive wash cycle and adjust dosage if required.
Always combine with Oceans Assured™ Dishwasher Rinse Aid for optimum drying and shine.

MULTI GREASE

ABOUT THIS PRODUCT

A powerful general-purpose degreaser formulated for use on a wide range of hard surfaces and mechanical parts. Designed as part of the Oceans Assured MARPOL-compliant range, this concentrated cleaner is diluted 5:1 with water to remove heavy grease, oil, fuel residues, and stubborn grime. Suitable for use in engine bays, workshops, and on exterior surfaces where strong degreasing action is required.

THE FACTS

MARPOL ANNEX V COMPLIANT
EU AND UK REACH REGULATION COMPLIANT
30% PCR CONTAINER & FULLY RECYCLABLE
NON-HARMFUL TO AQUATIC LIFE
NON-HAZARDOUS
NOT IDENTIFIED AS A PBT SUBSTANCE
DESCRIBED IN ACCORDANCE WITH THE ICAS CODE

INSTRUCTIONS

Dilute concentrate at 5:1 (water:product) in a clean spray bottle.
Apply solution directly to the surface or part and agitate with a cloth or brush to lift grease.
Rinse thoroughly with clean water.
For heavily soiled areas or machinery parts, allow product to dwell briefly before rinsing.

ALWAYS

Do not apply to hot surfaces or live electrical components.
Avoid use on polished or delicate surfaces without testing first.
Test on a small inconspicuous area to ensure suitability before full application.
Store in a cool, dry place away from direct heat and sunlight.

PARTS LUBRICANT

ABOUT THIS PRODUCT

A versatile multipurpose lubricant spray designed to penetrate, protect, and keep parts moving freely. Developed as part of the Oceans Assured™ MARPOL-compliant range, this formulation is made with biodegradable, non-silicone base oils that are non-harmful to aquatic life. Ideal for use on hinges, tools, chains, mechanical fittings, and general onboard maintenance, it helps to reduce friction, displace moisture, and guard against corrosion while remaining safe for the marine environment.

THE FACTS

MARPOL ANNEX V COMPLIANT

EU AND UK REACH REGULATION COMPLIANT

30% PCR CONTAINER & FULLY RECYCLABLE

NON-HARMFUL TO AQUATIC LIFE

NON-HAZARDOUS

NOT IDENTIFIED AS A PBT SUBSTANCE

DESCRIBED IN ACCORDANCE WITH THE ICAS CODE

INSTRUCTIONS

Shake can well before use.

Spray directly onto the part or surface requiring lubrication.

Allow the product to penetrate before operating or moving parts.

Wipe away any excess with a clean cloth.

Reapply as needed for ongoing lubrication and corrosion protection.

ALWAYS

Try a small discreet test patch before fully applying to ensure suitability.

Do not apply near naked flames or hot surfaces.

Avoid contact with eyes; rinse immediately if contact occurs.

Store in a cool, dry place away from direct heat and sunlight.
