USE AND SUGGESTIONS

Aperitive, snack, accompaniment to salads, poultry, meat, vegetables...

Based in the heart of the Ardèche chestnut production, Roger Descours and its subsidiary Concept Fruits, cultivate a love for chestnuts since 1975.

We respect traditional recipes while continuously looking to innovate. Concept Fruits has created for the first time a line of chestnut snacks.

Cooked and ready to eat, our chestnuts can be consumed as you like: as an aperitive or as a snack when you are hungry or as an accompaniment to salads, vegetables and festive dishes...

Convenient to take with you, Croc'Marron gives you energy and vitality.

Packaged in a way that preserves all the nutritional qualities and benefits of chestnuts, without preservatives or additives, Croc'Marron can be enjoyed anywhere at any time.
