## SMART BUS SHELTER

- USB and wireless charging
- 5G Internet access
- Exclusive 3D content
- Hybrid operation
- Modular

A photograph of a modern urban plaza with a large glass-fronted building in the background. In the foreground, there are several white, modular outdoor furniture pieces called Kuubes. One is a large square frame with a wooden bench inside. Another is a smaller rectangular frame with a wooden bench. A third is a low, wide rectangular frame. The scene is lit with warm, golden light, suggesting late afternoon or early morning. There are some young trees in the background, some supported by wooden stakes.
