## ABOUT ISTINYE UNIVERSITY

Istinye University was founded in 2015 by the 21st Century Anatolia Foundation based on the experience of the MLPCare Group. Adopting a student-oriented education approach, the university encourages the research of its faculty members in line with its goal of becoming a center of science and research. It also aims to contribute to the welfare of society and provide high quality healthcare services. It offers students a learning environment that includes a wide range of knowledge, technology and art, and focuses on developing leadership skills, raising them as individuals who believe in the power of science, think critically, and have humanitarian and ethical values. Istinye University aims to contribute to the development of society and support the progress of humanity.
