# 1.No programming

We have developed a new simplified grammar for analytics. The platform leverages AI to automatically create the analytic model from a standard SQL input...

It has been successfully tested  
across 20 industries and 10  
sectors.

BROADCASTING

## 2. All in one platform

From raw data to broadcasting information to stakeholders through a single and integrated technology stack.

The Analytic Model is prepared in a matter of hours rather than weeks or months.

## 3. High Performances

The HCR® Database technology is fully NoSQL, implementing the new grammar. It was inspired by the crystal lattice of crystals.

Browse and analyze billions of data in milliseconds.
