

# AI for Cyber Resilience in a Post-Quantum World

Helping CISOs Achieve Cybersecurity Regulatory Compliance

# EU Cyber Resilience Act (CRA)

## Cybersecurity Regulatory Compliance

2027 Quantum-Resilient Protection for Software CE Mark

✓ SECURITY-BY-DESIGN  
KEYTECH: Deployment of Advanced Key Technologies

✓ AUDIT REPORTING  
CYBERSEC: Implementation of National Security Strategy

EU Regulations are Complex for CISOs & Leadership Teams

Protostars are Evaluators for GPAI Systemic Risk with the EU AI Office.

**Inefficiency**

Time & Cost of Audits

**Stressfulness**

Cyber Risk Exposure

**Strenuous**

Policy & Code Reviews

## Simplify CRA Compliance with your AI-powered EU Cyber Resilience Platform

EU Sovereignty with Quantum-safe AI for CRA

## USP – AI COMPONENT

We have three small LLMs to (1) Chunk & Tag Code for scalability, to bridge (2) Natural Language Evidence Scans & Technical Analysis with Compliance Controls and to (3) Summarise for Contextualised Evolving Requirements.

## Monthly Subscriptions with Usage-metered Billing

### Evidence-based Reporting & Secure Code Analysis with Compliance Controls.

## MARKET SIZE

### TAM

$$\text{TAM} = \text{€}215\text{B} \times 25\% = \text{€}53.75\text{B}$$

**Global Cybersecurity Market:** \$215bn in 2024, CAGR14.3% annually (1)

**Regulatory Compliance Share:** Approx. 25% of security spending (2)

### POSITION ANALYSIS:

Regulation-focused aligned  
with critical trends in  
**EU CRA &  
US Cyber Trust Mark Act**

### SAM

$$\text{SAM} = \text{€}57.75\text{B} \times 30\% = \text{€}16.25\text{B}$$

**EU CRA Scope:** ~15% of global economy impacted (3)

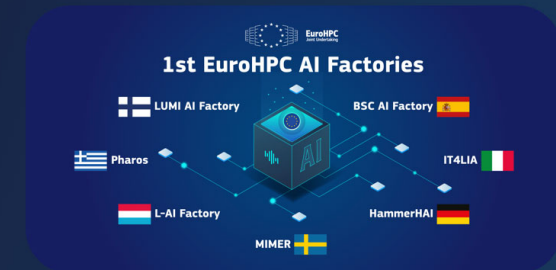

**US Cyber Trust Mark Act:** Overlap adds 15% of global spend.

### SOM

$$\text{SOM} = \text{€}16.125\text{B} \times 1\% = \text{€}161.25\text{M}$$

**Protostars Adoption:** Assume 1% penetration within EU & US

**EU €1 Bn investment:  
Foundational AI Need**
