

## MICROWAVE AND RF TECHNOLOGY FOR AEROSPACE SYSTEMS

[www.leanfa.com](http://www.leanfa.com)

### PRODUCTS AND SERVICES

- OEM modules
- R&D tools - kits
- Benchtop generators
- Custom PCBs
- RF Pallets

### APPLICATIONS

Polymers curing  
3D printing of advanced composites  
Metal powders sinterization  
Plasma-based satellite kinetics  
Onboard food heating

*Full documental support*

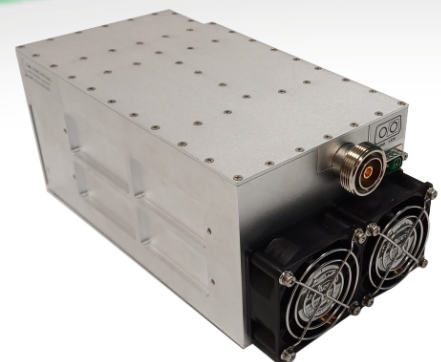

*EMC precompliance tests*

*In-house validation of safety requirements*

*Technology validated by worldwide customers*

*Largely tested with demanding applications*

*Positive market feedback: thousands units delivered*
