

## WHAT IS DAMISE?

DAMISE is a next-generation platform designed to empower businesses in the global marketplace. From seamless product verification that facilitates free trade, to powerful digital promotion tools and one-stop access to international tenders, DAMISE delivers everything companies need to thrive.

Our market-driven solutions cover technical, legal, and logistical requirements—ensuring your business is always a step ahead. By boosting your visibility within your industry ecosystem and fostering strategic collaborations, DAMISE, helps you unlock new opportunities and scale with confidence.

The sectoral search engine and digital platform offering end-to-end digital solutions in the industrial and high-tech sectors DAMISE, currently hosts approximately 2,500 members.

## Different Needs, One Platform: DAMISE

### Digital Launch

DAMISE breaks down physical barriers to showcase your products globally, enabling direct engagement with potential customers and empowering you to measure your results through detailed data analytics.

### Digital Showcase

With DAMISE, your events are always on-accessible 24/7 from anywhere in the world, whenever your audience is ready.

### DAMISE Ecosystem

In DAMISE, from product verification services, to real-time communication and taxonomy-based search users navigate and discover content through a structured classification system tailored to industrial and high-tech sectors.

### DAMISE Academy

DAMISE Academy delivers an accessible, measurable, and sustainable learning experience for everyone by offering high-quality educational content tailored to industry needs.

### Supplier Management

DAMISE makes the traditionally fragmented supply chain structure between OEMs and SMEs visible, accessible, and measurable—on a single digital platform.

### DAMISE Tenders

Eliminates barriers such as delayed tracking, limited access, and complex interpretation of global tenders—ensuring your business connects with the right opportunity at exactly the right time.
