THEY TRUST US!

"We are confident that our teams have increased their efficiency and productivity and have the tools they need to do their jobs well."

Purchasing Director
of the PPHE hotel group

"We decided to make this investment because a lot of laundries were disappearing. Since then, annual purchases have been halved."

Director of the AP-HP laundry

"Today, as a business owner, having real-time visibility into my inventory is crucial."

Coraly Hulin, founder and manager
of West Cheval

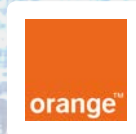

"Today, we are successfully deploying this technology at many sites around the world, which has given us better visibility of our business."

Transformation project manager
at Faurecia

"The solution implemented allows us to carry out fast and reliable inventories, which has enabled us to consolidate our DCIM within the data centre."

Head of Proximity and Logistics
at the Orange Normandy data centre
