HX & TG trucks
MENA, 2008-2023

860+
HX & TG trucks
Singapore 2009-2019

200
HX trucks
New Zealand, 2013-2021

3,500+
HX trucks
Australia, 2013-2023

The TG-Mil Series – Militarised Truck Excellence

Exemplary use cases

White Fleet

6x6 Cargo

6x6 HET with trailer

8x8 Recovery

8x8 Tanker

8x8 Hook Loader

8x8 Load Handling System

8x8 Crane

The HX – More Than A Truck

Exemplary use cases

4x4 Container

HX 6x6 Recovery

HX 6x6 Cargo

HX 8x8 Artillery

HX 8x8 Load Handling System

HX 8x8 System Carrier Fleet

HX 10x10 Bridge Layer

The HX3. Superior. Every Day. RMMV's next generation vehicle

New designed cabin

Improved protection

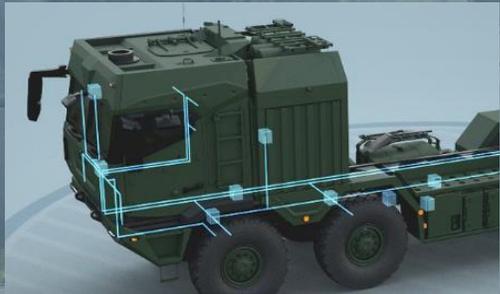

New cabin interior

New ADAS features

New EE-Architecture

Modernized drivetrain

Fitted for automated drive

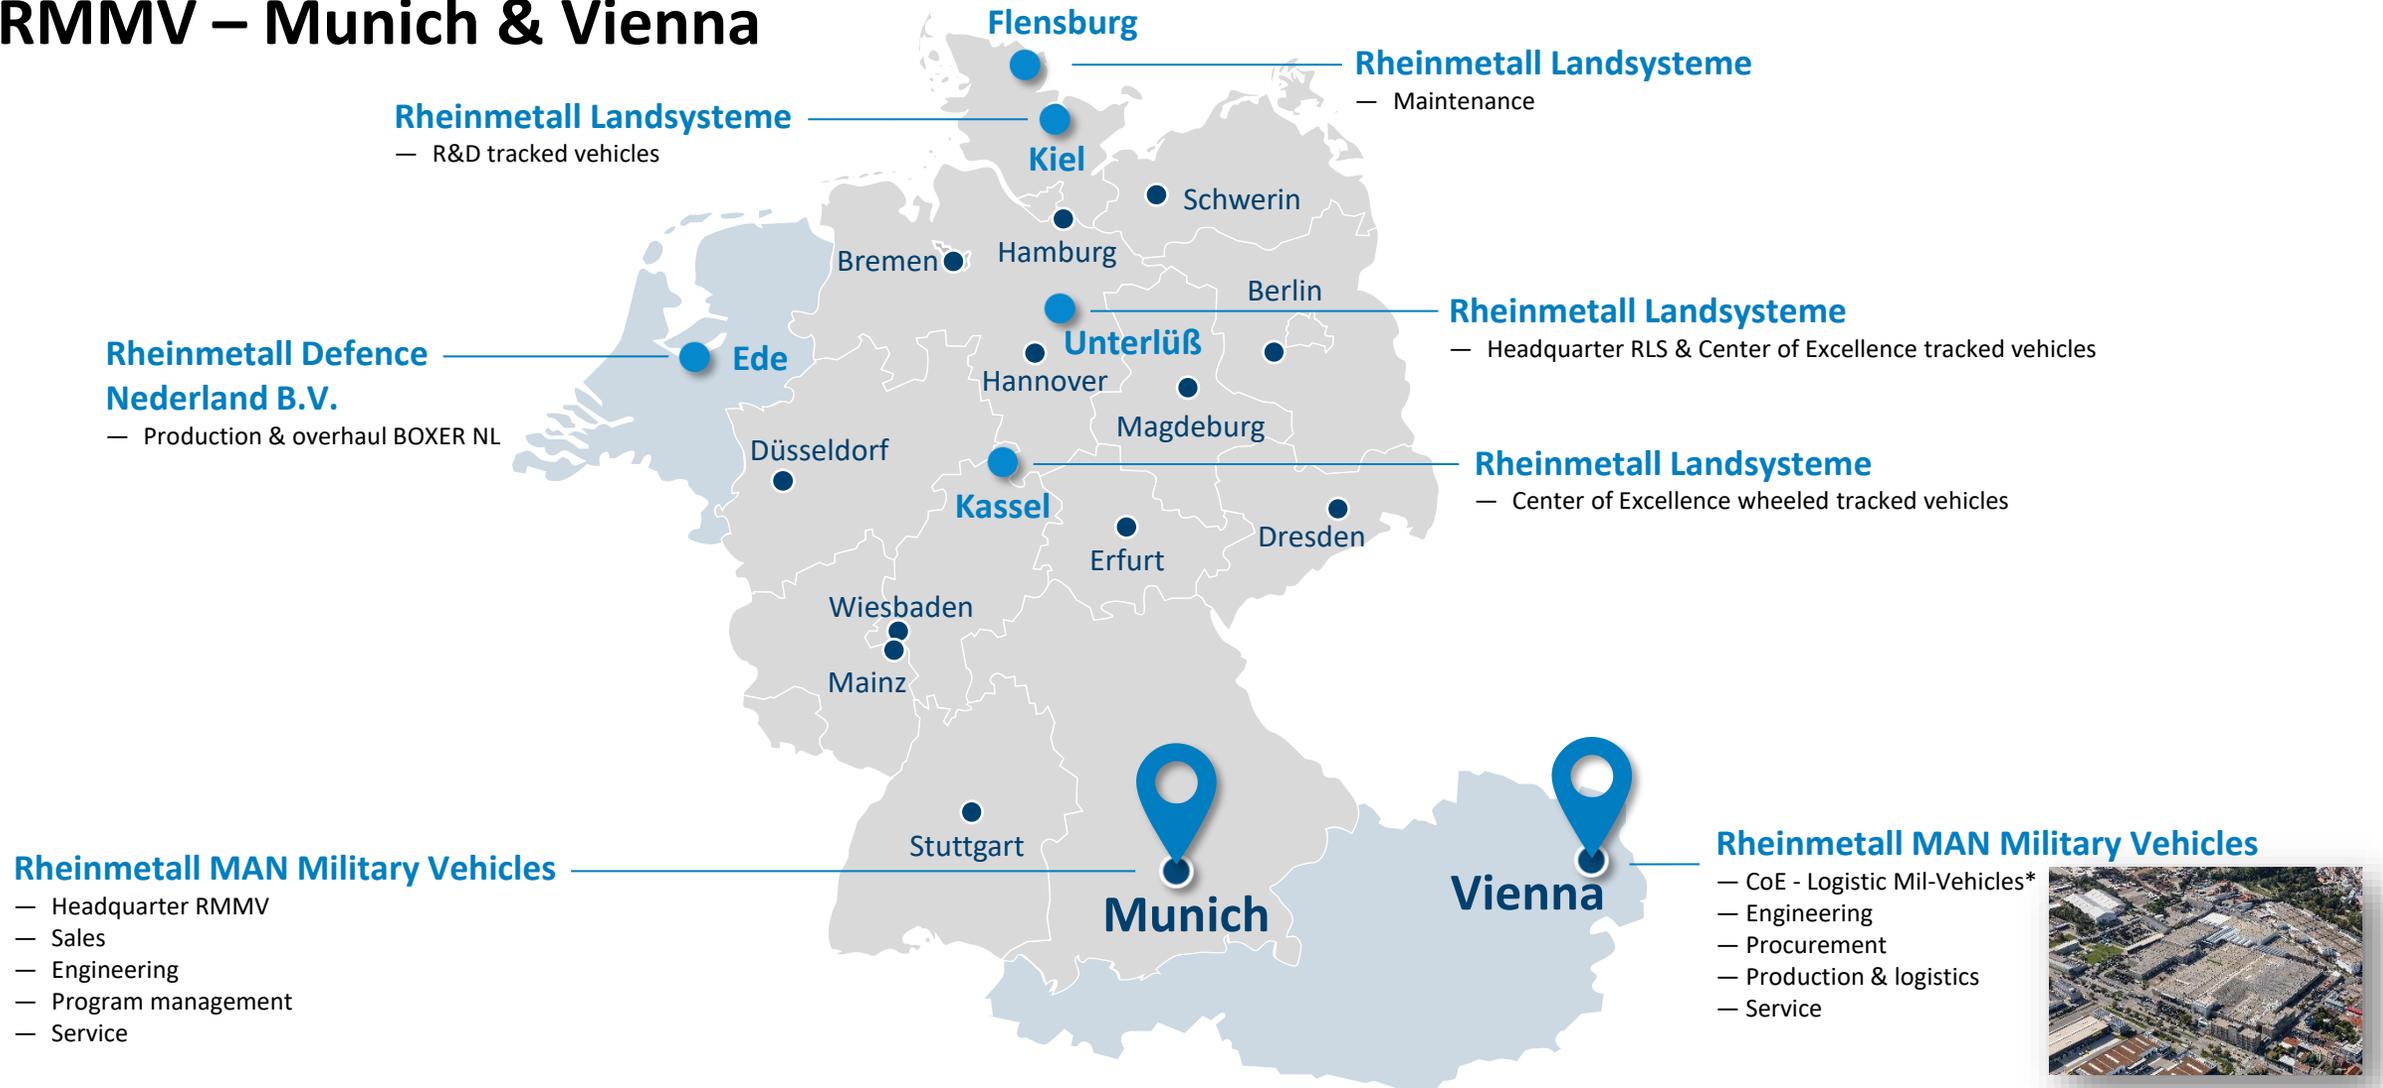

Enhanced storage

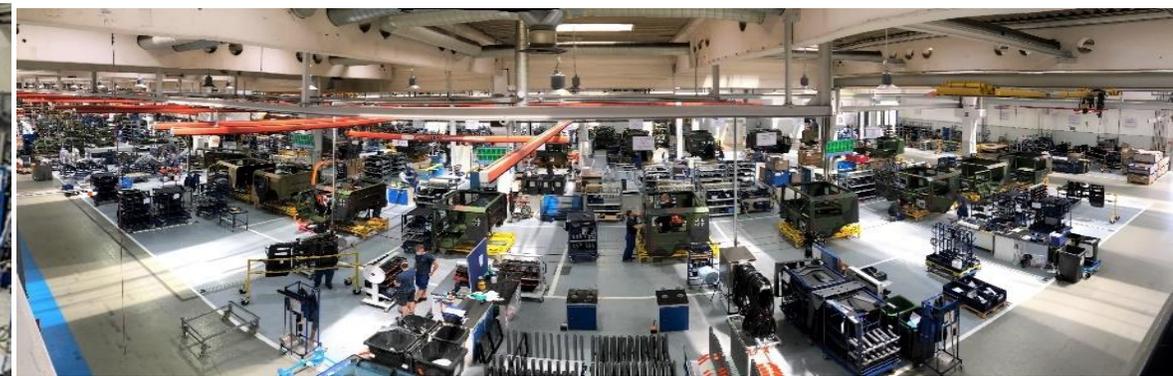

Rheinmetall Division Vehicle Systems Locations

RMMV – Munich & Vienna

Rheinmetall MAN Military Vehicles

Vienna - Center Of Excellence – Logistic Military Vehicles

SITE INFORMATION

- Founded 1911
- 95,000 m² surface (60,000 m² are built up)
- 1,400 workforce (including 200 engineers in R&D)

PRODUCTION

- 700,000 – 1,000,000 production hours p.a.
- 2 truck assembly lines, prototype and pre-series center, cabin assembly line
- Manufacturing center

OUTPUT

- 2,000 – 3,000 trucks p.a. (in preparation for 4,000 trucks in 2025)
- Body & system integration
- ILS documentation, service and training

Table of Contents

01 Company Presentation

02 Current Scope of RMMV-Projects in RnD

03 Fields of Interests in EDF 2026

Current Scope of RMMV-Projects in RnD

1. Automated mil. Driving & Teleoperation
2. Automated Loadhandling
3. Virtual Hardening & Testing
4. Simulation
5. Innovative Propulsion Systems
6. Lightweight
7. New mil. Applications

03 Fields of Interests in EDF 2026

Fields of Interests in EDF 2026

EDF-2026-RA-MCBRN-DST: CBRN decontamination systems and technologies

- RMMV could enhance decontamination of the trucks constructionwise
- NVH-study regarding sensitive equipment and warning module in case of damaging

EDF-2026-LS-RA-CHALLENGE-DIGIT-AISAO: AI-based tactical situational awareness using swarms of small robots and drones – organisation of a technological challenge

- RMMV could provide and further enhance vehicle models, as a carrier vehicle

EDF-2026-DA-GROUND-MRL: Multiple rocket launcher

- RMMV could provide and adapt Launcher vehicle

EDF-2026-DA-PROTMOB-DMM: Secure digital military mobility system

- RMMV could provide and enhance vehicle simulation in order to estimate the feasible velocity in terrain ahead

EDF-2026-DA-AIRDEF-EATMI: High-end endo-atmospheric interception

- RMMV could provide and adapt a launcher vehicle
