The What, Why and How's

At The Waste Not Spot, we are committed to 'Making Circularity A Reality.' We work with a close network of highly trusted and experienced individual sustainability consultant and consultancy partners to deliver a range of services relevant to businesses/corporates, not-for-profit organisations, government bodies and educational institutions.

When collaborating with The Waste Not Spot, you're investing in a number of valuable benefits including:

- Future-proofing your business with CSRD compliance
- Managing and mitigating risk
- Saving on costs and improving operational efficiency
- Enhancing brand reputation and increasing stakeholder trust
- Unlocking new market opportunities
- Engaging and retaining employees
- Making data-driven decisions

We offer flexible pricing structures to meet the needs of the business at different stages of your sustainability journey. We aim to provide transparency and clarity in our pricing, ensuring that companies can plan their budgets effectively whilst receiving the support they need to reach their goals.

Standard rates: €150 + VAT (Hourly); €1,200 + VAT (per 8-hour day) **Travel expenses will be discussed and agreed upon prior to project commencement, if applicable. Tiered service packages can be discussed.

THE WASTE NOT SPOT

Our Workshops & Webinars*

INTRODUCTION TO CIRCULAR ECONOMY PRINCIPLES

This is our overview of circular economy concepts.
Explanation of 3 key principles: design out waste & pollution, keep products and materials in use & regenerate natural systems.
Examples of circular economy success stories.

CIRCULAR DESIGN THINKING

Hands-on exercises to promote innovative product & service design.
Strategies for designing products with longevity, reusability and recyclability in mind.
Case studies of companies implementing circular design principles.
