SUSTAINABILITY REPORTING / CONSULTING + TECHNOLOGY

EARLY-STAGE CONSULTING INITIATIVE

EVIDELTA

SUSTAINABILITY CONSULTING

Complete sustainability reports. From scratch. Stronger trust with your business customers.

End-to-end sustainability reporting for B2B manufacturers and suppliers.

WHAT BUYERS EXPECT

Larger buyers request GHG emissions data, ESG questionnaires, supplier traceability and complete sustainability reports. Clear information strengthens commercial credibility.

HOW EVIDELTA HELPS

We structure the full reporting process from the first data request to a complete report, with traceable supporting evidence for independent review. Better responses help protect and strengthen buyer relationships.

CONSULTING SERVICES / COMPLETE REPORTING AT THE CORE

Complete sustainability reports

From scratch, with traceable evidence for external audit

Supplier ESG documentation

Buyer questionnaires, supplier evidence and traceability

Materiality and gap assessment

Requirements, priorities, missing data and criteria

GHG emissions assessment

Scope 1, Scope 2 and relevant Scope 3, as scoped

Preparation for external audit

Methods and documented evidence for independent review

Sustainability improvement plans

Action plans, KPIs and measurable targets

EVIDENCE-DRIVEN DELIVERY / TECHNOLOGY SUPPORT

EVIDELTA is developing technology to support document collection and validation. Its v1.6.1 prototype demonstrates energy-invoice extraction, automated checks, exception tracking, CSV exports, preliminary Scope 1 and 2 calculations and a dashboard.

INDUSTRIES WE SUPPORT

Industrial suppliers / Fashion & leather / Food & beverages / Logistics

LET US TALK - Exploring full sustainability reporting, customer ESG data requests, or a focused pilot project? Contact EVIDELTA to discuss a practical scope, clear deliverables and the next steps.
