Innovating Agriculture for a Changing Climate

Laura Pardavi

Gazda Kontroll Kft. (Hungary)

This project has received funding from the European Union's Horizon Europe research and innovation programme, under Grant Agreement No 101059839

Funded by the European Union. Views and opinions expressed are however those of the author(s) only and do not necessarily reflect those of the European Union or the European Commission. Neither the European Union nor the granting authority can be held responsible for them.

Who we are :

- A private agricultural consultancy based in Hungary
- Trusted by 500+ farmers and agri-business clients
- Strong links to researchers, policy makers, and innovators
- Bridging practice and research for real-world impact

Key Challenges We Wish To Tackle :

- HORIZON-CL6-2025-02-FARM2FORK
- HORIZON-CL6-2025-02-CLIMATE
- HORIZON-CL6-2025-03-GOVERNANCE

Further Areas To Explore :

- HORIZON-CL6-2025-01-BIODIV
- HORIZON-CL6-2025-01-ZEROPOLLUTION

Our evolving project ideas:

(1) Resilient Plants for a Changing Climate (existing consortium)

- Collecting and spreading insights in crop resilience
- Driving knowledge sharing through AKIS networks

(2) Reduced GHG Emissions for a Greener Future (new consortium)

- Partnering for a low-carbon future in agriculture
- Reducing emissions with innovative farming solutions

(3) AI-Powered Decisions for Climate -Smart Farming (new consortium)

- AI-driven decision support for farmers
- Boosting climate resilience with cutting-edge agri-tech solutions

What we offer :

- **WP leadership** : delivering results on time
- **Dissemination** : effective strategies for broad outreach
- **Expertise** in climate resilient plants, GHG emissions and more
- **Access to our strong network** : extensive connections with 500+ farmers, policy makers, and research institutes across Hungary

What we look for :

- **Curious collaborators** with a passion for innovation
- **Enthusiastic experts** in sustainable farming, emissions cut, and AI
- **Passionate partners** eager to shape the future of agriculture
