Positive energy waste water treatment plant for combined treatment of waste water and bio-waste in small populations.
GA number: LIFE19 ENV/ES/000631

[Inicio - Life Zero Waste Water](#)

6 partners
1,28M€ funding

Multi-platform biorefinery based on the metabolism of purple phototropic bacteria to extract and recover high added-value compounds for the bio-based industry.
GA number: 837998

[Deep Purple – BBI Project – Energy & valuable resources recovery from urban waste streams in photobiorefineries \(deep-purple.eu\)](#)

15 partners
6,98M€ funding

Novel composites with high strength biobased carbon fibres and biobased structural resins with a dynamic performance for improving the lifetime, achieve an efficient decommissioning and increase the circularity of the wind sector: i) Coatings with self-healing and omniphobic properties for lifetime spanning, ii) Debondable adhesives formulation for enhanced recycling and maintenance,. GA number: 101147451

11 partners
3,96M€ funding

Data driven implementation of hybrid nature based solutions for preventing and managing diffuse pollution from urban water runoff.
GA number: 101060638

[D4RUNOFF – Preventing pollution from urban water runoff](#)

13 partners
3,3M€ funding

Success stories

Environment

Wind turbine blades End of Life through Open HUBs for circular materials in sustainable business models” has the ambition to recover glass and carbon fibre from wind turbine blades at the end of their useful lives and create a knowledge hub to facilitate the recycling. <https://eolo-hubs.eu/>

13 partners
12 M€ funding

Advanced risk management tool for early detection and identification of toxic algal blooms.
GA number: LIFE22-ENV-ES 101114366

[CyanoBloom – Why do toxic cyanobacteria bloom? A gene to ecosystem approach](#)

6 partners
1,47M€ funding

Demonstration and evaluation of Sustainable On-site remediation technologies for PFAS-contaminated groundwater.
GA number: LIFE20 ENV/ES/000880

[Start - LIFE SOuRCE \(life-source.se\)](#)

8 partners
1,58M€ funding

Retrofitting solution for increasing the resilience of urban wastewater infrastructures in heavy precipitation areas.
GA number: LIFE20 CCA/ES/001706

[Inicio - Life-Reseau](#)

3 partners
1,59M€ funding

Industrial technologies AI and Robotics

An innovative and holistic robotic system for the handling of flexible and deformable materials within labour-intensive production processes.

GA number: 869855

[SoftManBot – Advanced Robotic Technology for Handling Soft Materials in Manufacturing Sectors](#)

11 partners
7,55M€ funding

Human-AI Teaming Platform for Maintaining and Evolving AI Systems in Manufacturing.
GA number: 957402

[Teaming.ai \(teamingai-project.eu\)](http://teamingai-project.eu)

15 partners
5,7M€ funding

Open platform based on artificial intelligence and the provision of cognitive services for the development and integration of robotic solutions aimed at agile manufacturing.

GA number: 101017284

[Home - Acroba Project](#)

17 partners
6,9M€ funding

Cognitive platform for advanced digitalization and intelligent management of industrial processes based on monitoring and data analysis tools.

GA number: 869931

[COGNIPLANT](#)

14 partners
6,7M€ funding
