

2025

Empowering Surgeons through
Realistic Simulation.

MediMimesis

Where Anatomy Meets Innovation

MediMimesis

2025

Imagine this...

ADDION

EYECREAT_{GmbH}

Medical Training Needs New Tools...

- lack of donated bodies
- Lack of tactile feedback
- standardized practice opportunities
- especially for rare pathologies.

The result: high complication rates and long learning curves, even for experienced surgeons.

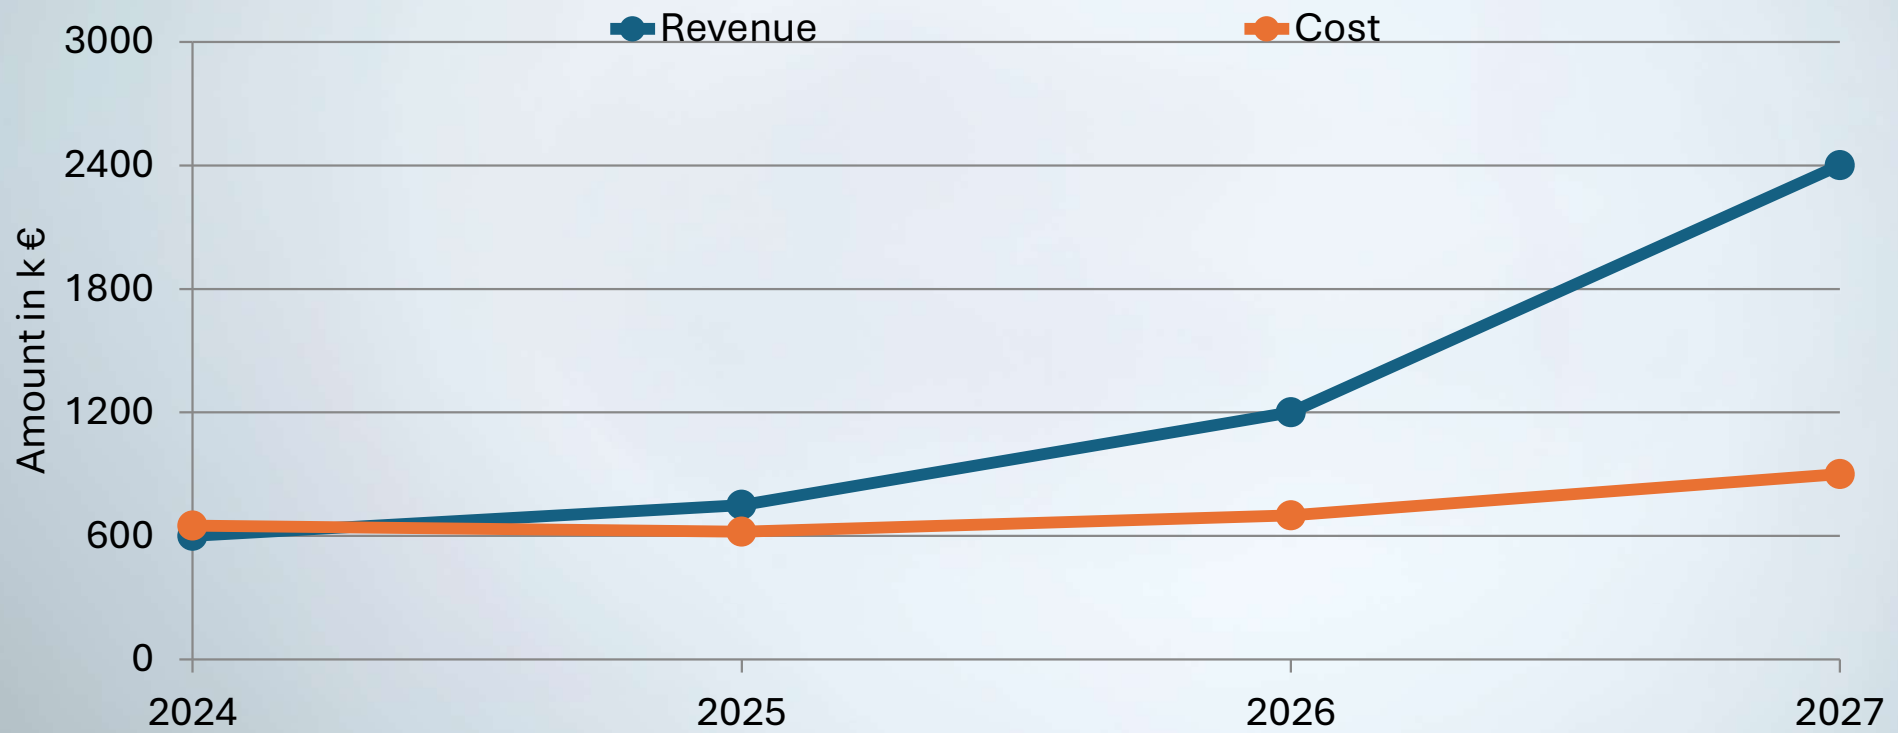

Real Models for Real Skills

LidSUMMIT
Tirol

- **Prof. Dr. Konschake** (Executive Director
Department of Anatomy)
- **David Ortner eyecre.at GmbH** (Wetlab Knowhow)
- **Alexander Hechenberg Addion** (Medtech Printing)
- **Stratasys** (manufacturer High-end 3D printing)

Let's Scale – Together

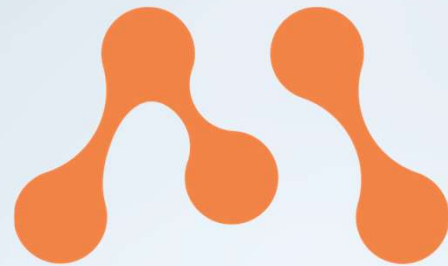

- Model new pathologies
- Enter international markets
- Set the standard in surgical education

We're seeking **partners**, **universities**, and **investors** to turn one solution into many—and help save lives.

Thank you for your attention.
