

Exchange for Change

VIII Water and Renewable Energies Forum

23rd-24th NOVEMBER 2023

Training and Conference Centre
of Fuerteventura

01.

What is Africagua?

Africagua is an international event held in Fuerteventura every two years. Its aim is to promote the meeting of the different agents and initiatives related to **water and renewable energies**, as well as to position the island of Fuerteventura on the map.

This business forum is organised by the Official Chamber of Commerce, Industry, Services and Navigation of Fuerteventura in partnership with the Government of the Canary Islands and the Fuerteventura Island Council, among other actors. It aims to create synergies and promote clean and sustainable energies, with networking at the heart of the event.

02.

Mission

Our mission is to foster collaboration between networks, experts, institutions, organisations and companies.

The main objective is to identify barriers and challenges in access to quality water and renewable energies, while at the same time proposing practical and feasible solutions.

Furthermore, we seek to raise awareness of the importance of access to these resources for global environmental, economic and social sustainability.

02.

Mission

The value of natural resources in the African continent makes this territory a specially protected area that offers countless opportunities for growth.

Africagua aims to boost these opportunities based on a model that respects the environment and natural resources.

03.

Goals

As a leading forum on sustainable and equitable future for all, Africagua Canarias 2023's main objective is to promote access to quality water and renewable energies, turning the Canary Islands into a role model for other regions in the world in terms of sustainability and access to these resources:

Promoting the search for synergies for better development among the participating countries through collaboration in the field of water and renewable energies.

Fostering the establishment of the Canary Islands and Fuerteventura as a business hub that facilitates the interaction between companies, strategic partners, bodies and other actors on an intercontinental level.

Promoting internationalisation through strategic alliances and business opportunities for companies and organisations from different countries in the field of water and renewable energies.

03.

Goals

Boosting the transfer of technology, knowledge and best practices in the management of renewable resources, while promoting the adoption of sustainable solutions in different regions of the world.

Promoting the investment in projects related to sustainable resources, facilitating the funding of and access to financial resources for the development of sustainable infrastructures and technologies.

Raising awareness of the importance of water and energy resources in order to ensure environmental, economic and social stability.

Promoting research and innovation in the field of water and renewable energies through collaboration with universities, research centres and companies.

04.

Goals with a focus on SDGs

The Africagua business forum seeks to promote and develop the following goals:

05.

Structure of the programme

Africagua Canarias 2023 is based on four fundamental pillars that address current problems and make up the central issue to be discussed. These blocks are divided into thematic clusters that provide a comprehensive approach for sustainable development in the region.

Block 1

Sustainability

- 06. Closure

07.

Africagua Canarias

23rd-24th November 2023

Training and Conference Centre
Fuerteventura

Participation of intercontinental countries with a specific interest in the energy sector applied to the water cycle.

- 1. Fuerteventura Airport
- 2. Puerto del Rosario
- 3. Training and Conference Centre
- 4. Official Chamber of Commerce, Industry, Services and Navigation

08.

Why Fuerteventura?

Due to its geostrategic location, Fuerteventura is a gateway to and a bridge with Africa. Furthermore, the Canary Islands benefit from a situation of political stability, legal certainty and a differentiated tax regime approved by the European Union. This makes the territory a key point of unity and agreement for initiatives like this.

The Official Chamber of Commerce, Industry, Services and Navigation is committed to Fuerteventura as a meeting point due to its remarkable qualities, including:

01. A vocation for renewable energies
02. Commitment to water technologies
03. Intercontinental linking point with unrivalled logistics connectivity
04. More than just a privileged tourist destination

Global
