

InScite Consulting: Transforming Ideas into Market-Ready Solutions

We are the strategic partner of choice in formulation, product development and scientific innovation, serving pharmaceutical, med-tech, nutraceutical, and cosmetics companies. Our integrated approach combines deep scientific expertise with proven commercial insight to accelerate your innovation pipeline.

Core Services

Formulation Development & Optimization

Tailored formulation design and refinement to meet target performance criteria, stability requirements, and regulatory standards.

Technical Characterization

Comprehensive analysis and characterization of existing formulations using advanced analytical techniques to understand composition and performance.

Product Development

End-to-end product development leveraging optimized formulations to create scalable and cost-effective market-ready solutions.

Strategic Advisory & Support Services

Technology Assessment

Expert evaluation of emerging technologies, competitive landscapes, and market opportunities to inform strategic decisions.

Scientific Advisory

Ongoing strategic counsel on technical challenges, development pathways, and regulatory considerations.

IP Strategy & Generation

Comprehensive intellectual property strategy development, patent landscape analysis, and support for IP generation and protection.

Non-Dilutive Funding Support

Proven expertise in securing grants and non-dilutive funding for startups and SMEs, with multiple successful applications across various programs.

Industry Verticals We Serve

Pharmaceutical Solutions

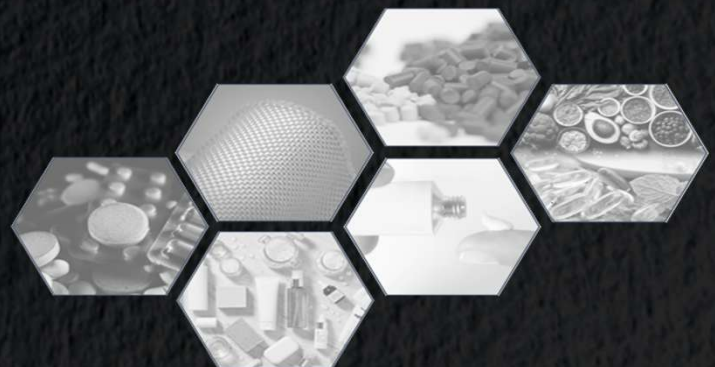

- **Oral Solutions:** Advanced solid & liquid formulations for enhanced bioavailability and patient compliance
- **Dermal & Topical Solutions:** Targeted delivery systems for transdermal and topical applications

Med-Tech Innovation

- **Functional Coatings:** Specialized surface treatments for medical devices and implants
- **Biomaterials:** Advanced functional materials for biomedical applications

Consumer Health & Wellness

- **Nutraceutical Oral Solutions:** Effective delivery systems for dietary supplements and functional beverages
- **Cosmetics & Personal Care:** Innovative formulations for skincare, haircare, personal hygiene and beauty applications

Partner with InScite Consulting
