EPSILON is a Sciences, Technology, Engineering and Consulting International Group engaged in: **Environment & Water, Natural Resources, Ecosystems, Agriculture, GeoInformatics, Energy, Aviation, Maritime, Disasters, Economics & Management.**

EPSILON was first established in 1985 in Boston, Massachusetts, USA, and then in 1990 in Europe. Today it operates world-wide as a Group of legally independent companies with key Offices in Malta, Greece, Bulgaria, Cyprus, Germany, Italy. It has allied offices in most European countries and cooperates with foremost world technology organizations.

As a consulting & engineering company specializing in Civil Protection projects, EPSILON is focusing on enhancing disaster risk management and resilience. Our work includes the development of early warning systems, risk assessment and mapping, emergency response planning, and critical infrastructure protection. We support local and national authorities in designing integrated strategies for natural and man-made hazards, including floods, earthquakes, wildfires, and industrial accidents. EPSILON promotes the use of advanced geospatial technologies, climate risk analysis, and community-based approaches to preparedness and response. Our goal is to strengthen institutional capacities and ensure effective coordination across all phases of disaster risk reduction.
