We **have a relevant network** with different organizations throughout the **Life Sciences and others technological sectors in Mexico.**

We can offer strategic relationships in these specific goals:

- **Business Intelligence and HealthTech Landscape Reports** and in the region.
- **Information Technology Consulting Services:** Scoutting of new technologies and for your Open innovation strategies (researchers or startups).
- **Matchmaking with potential partners** such as universities, research centers, clinical trials, manufacturing companies, or specialized chambers of commerce.
- **Connections with regulatory experts** to introduce new products in this market.
- **Business Consultancy Services** trough **Exploratory Interviews** with potential customers (B2B/B2C).
- **Firsts connections with federal or local governments** for Foreign Direct Investment in HealthTech sector.

We have carried out these activities for organizations from world regions:
