

# PHARMBIOTEST Poland LTD

Contract Research Organization

Full Range Services in Phase I clinical trials

---

## Who we are

---

PHARMBIOTEST Poland is a contract research organization (CRO) with its own clinical and bioanalytical facilities, providing a broad range clinical trials services for pharmaceutical, generic drug and healthcare companies. Our headquarters are in Grudziadz, Poland.

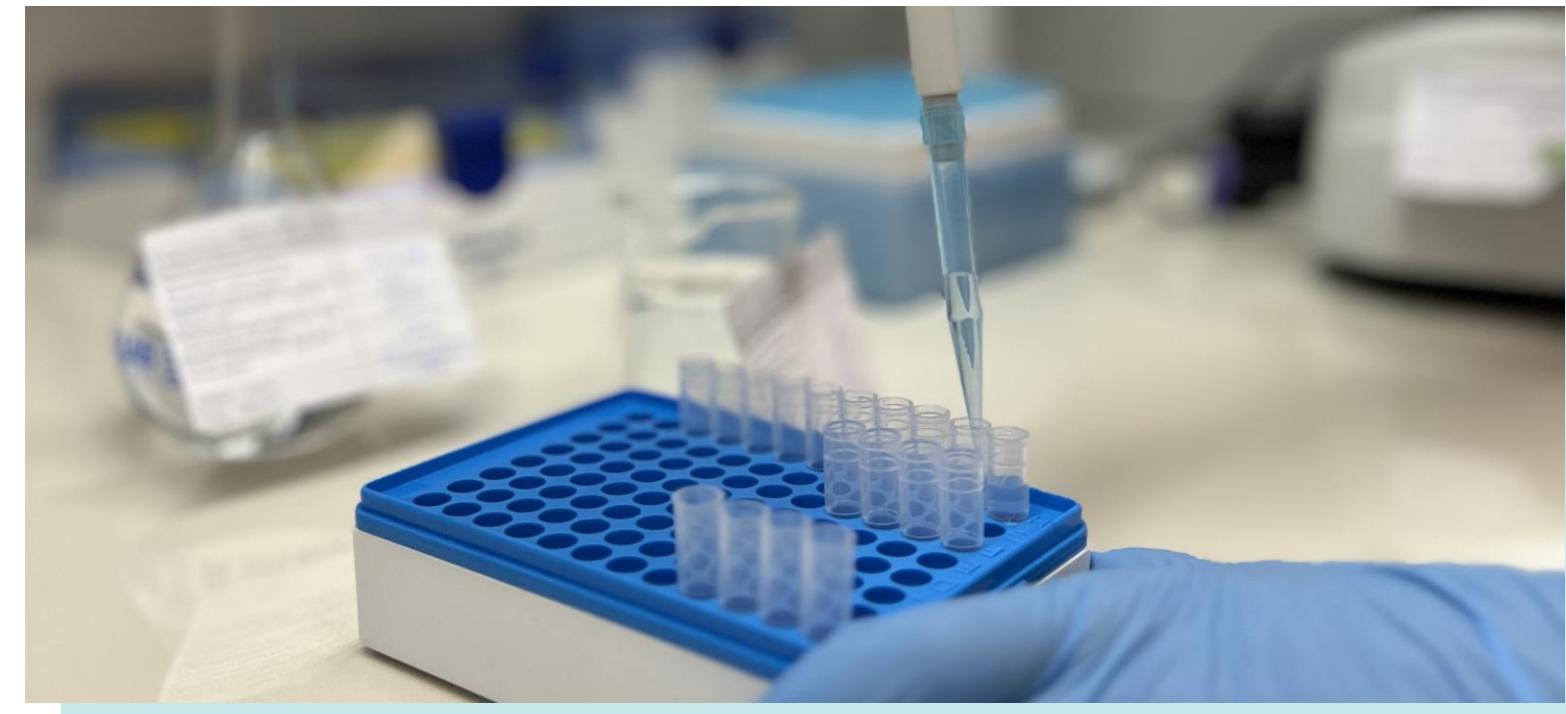

# Bioanalytical Services of Pharmbiotest Lab

Our team of specialists has experience in developing innovative methods, as well as providing timely and high-quality analytical services, personalized for each client's specific program.

Pharmbiotest's Bioanalytical laboratory  
is [GLP-certified](#)

Our expertise spans the following areas:

- High performance liquid chromatography (HPLC, UHPLC) with DAD, RF, MS/MS detectors
- Mass spectrometry (LC-MS/MS),
- Gas chromatography GC-MS

# List of Bioanalytical Services

## Development

- ✓ Development and validation of bioanalytical methods for the determination of the drug and/or its metabolite/s in a biological matrix in accordance with the EMA/FDA guidelines, completed with a validation report;
- ✓ Development and validation of bioanalytical methods on HPLC-MS/MS systems for determining such components as:
  - Difficult endogenous, reactive or unstable analytes in biological fluids
  - Ultrahigh sensitivity assays with pg/ml lower limits of quantification (LLOQ)
  - Analysis of samples in several biological species and matrices
  - Analytes requiring derivatization during sample preparation
  - Analysis of chiral compounds
- ✓ Development of analytical methods for the determination of small molecules and endogenous components in dried blood spots (Whatman 903 dbs cards, VAMS)

# List of Bioanalytical Services

## Full Range

- ✓ Full bioanalytical service offering of PK for small molecules (up to 1000 Da)

## Support and consulting

- ✓ Analytical supporting in therapeutic drug monitoring
- ✓ Drug development supporting and consulting
- ✓ Bioanalytical method development supporting and consulting

## And other services

If you have any other goals or tasks, please send us your inquiry and we will carefully analyze it to provide the best possible solution

## Our advantages

Over 30 successful Phase I studies

A full range of Phase I studies (turnkey studies)

Clinical unit & Bioanalytical laboratory (GLP- certified) in one facility

Any complexity of bioanalytical methods

Staff trained in accordance with GLP and certified in GCP

Wide experience in difficult designs (full-replicate, two-stage etc.)

---

We look forward to partnering with you!
