

WE CREATE EXPERIENCES

Suricatta

Our Events

We create new leisure concepts by developing creative and sustainable content that encourages you to enjoy the event in a more conscious way. We comprehensively manage and execute unforgettable moments together with the creative proposal. Our team of professionals designs unique and underused spaces. All content, messaging and materials are wrapped in a pioneering circular strategy in the Region of Murcia.

Audiovisual Production

We are a production company, able to adapt to any medium. We produce short films, music videos and advertising for all kinds of companies. Specialists in tourism promotion videos. Scriptwriting, production, shooting, post production, art direction, set design, etc

ACTIVITIES

GASTRONOMY

A large crowd of families with children playing in a park-like setting. In the foreground, several children are sitting on a patch of artificial green grass, engaged in play with wooden blocks and structures. A man in a green t-shirt and blue cap is crouching down, interacting with the children. Other families are visible in the background, some standing and talking, others sitting on the grass. The scene is outdoors, with trees and a paved area visible. The overall atmosphere is lively and family-oriented.

FAMILIES

Family is one of the central themes of the festival. All the content at 'The Secret Garden' is designed for families with children. We have a 1,000 square meter area for an immersive play space made from salvaged materials so that the youngest visitors can enjoy themselves and learn.

ARTS

The Secret Garden is a curated art festival that offers diverse artistic exhibitions by professionals from various fields. Its program interweaves a series of artistic installations, visual and musical experiences, with which the public interacts through touch, sight, hearing, play, or dance.

EL JARDÍN SECRETO

The Secret Garden

We want The Secret Garden to be a driver of change. Sustainability preserves what already exists for future generations, while regenerative design goes a step further, aiming to leave ecosystems better than we found them. Our objective is to leave both environment and community in a better state. We create experiences that truly impact society, using the power of culture to share values and inspiration.

VALUES: Innovation · Creativity · Nature · Inclusion · Commitment · Holistic Well-Being Family Balance

MISSION

This festival projects a positive image of the city as a cultural and sustainable benchmark. Our vision is to create events capable of transforming communities and attracting visitors who seek meaningful, transformative experiences.

AUDIOVISUAL CONTENT

Our meetings bring together numerous artistic disciplines, creating synergies and innovative and creative experiences.

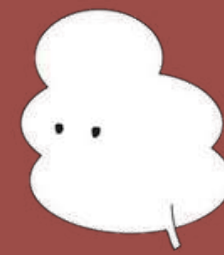

PLAY

PLAY

EL JARDÍN SECRETO

The festival is a blend of experiences where each person finds their space, their moment and their sensations. Our format adapts to youngsters, adults, seniors and also the little ones, connecting all generations through its original content full of activities.

LOCAL & INTERNACIONAL NETWORKS

SURICATTA has built an ecosystem capable of connecting local cultural action with European strategic frameworks, generating local and international alliances with artistic, community and institutional dimensions.

SURICATTA is part of the New European Bauhaus Community and participates in the NEB Local Chapter Region of Murcia (UrbActivistas), collaborating with public administrations, universities, technology centers and cultural entities.

EFFE label awarded by the European Festivals Association

Suricatta holds the EFFE (Europe for Festivals, Festivals for Europe) label, a quality distinction awarded by the EFA to festivals recognized for their artistic excellence, community impact, and international openness.

The EFFE Label certifies that The Secret Garden meets European standards in sustainability, inclusion, artistic development, and citizen participation, standing out within a network of more than 1,900 recognized festivals across Europe.

The Secret Garden

Murcia, Spain

Last edition: 27 Mar 2026 - 29 Mar 2026

THE SECRET GARDEN, RECOGNIZED AS THE THIRD BEST ENTREPRENEURSHIP PROJECT 2023 BY THE MURCIA CITY COUNCIL.

THE SECRET GARDEN CONTRIBUTES TO THE ACHIEVEMENT OF THE 2030 AGENDA

The cultural and creative industries are an economic engine and a driver of Sustainable Development. El Jardín Secreto (The Secret Garden) is committed to talent and creativity to innovate and contribute to a prosperous future.

We allocate budget for projects that boost employment for disadvantaged individuals or groups.

We donate surplus food to food banks.

We develop activities that promote overall well-being and mental health for the enjoyment of all people, regardless of age or gender.

We promote culture, and in particular that oriented towards sustainable development, combining art and education for the development of boys and girls on equal terms.

Both in the organization and in the content of the festival, the presence of women is distributed in 50/50 equality.

Some facilities are powered by solar energy, while we ensure availability through water sources on the premises, which helps reduce the consumption of single-use plastic bottled water.

THE SECRET GARDEN CONTRIBUTES TO THE ACHIEVEMENT OF THE 2030 AGENDA

Our positive impacts don't end when the Festival is over; we remain involved with the community, for example, by supporting the Segura Food Bank, or by contributing to the revitalization of nature to offset our CO2 emissions.

We provide opportunities for promotion and synergy creation to entrepreneurs, artisans, NGOs, and food producers.

We promote inclusive and sustainable processes, entrepreneurial projects and businesses, and we foster innovation.

We provide information and practical opportunities for a sustainable and responsible lifestyle.

We control our processes and reduce their environmental impact; we offset our carbon footprint through tree planting. We involve government agencies and stakeholders from civil society, academia, and the scientific community.

All of this is possible thanks to the alliances we establish between dozens of public and private entities, associations, NGOs and other groups.
