Company Group presentation

1954

Trasmec was founded in **Casalbuttano**, in the **province of Cremona, Italy**, initially specializing in the **design and manufacture of conveyor systems for the agricultural sector**.

1970-1980

Collaboration begins with the main contractors in the **wood panel industry** in Italy, consolidating Trasmec's presence in the sector.

1990

Trasmec begins its first international activities, becoming a reference name for all major producers of wood-based panels worldwide.

2000

TRASMEC – ITALY HEADQUARTER

Located in **Cremona**, approximately **one hour from Milan**, our Italian headquarters serves as the engineering hub for the entire Trasmec Group. The site employs around **70 people** and is responsible for the development of construction drawings for all Group subsidiaries. Alongside its engineering activities, the facility also hosts a production department, which in recent years has been primarily focused on the manufacturing of **spare parts and chains**.

2003

TRASMEC - ROMANIA

The opening of our Romanian facility marked the first step in the internationalization of Trasmec's production activities. Today, the site employs approximately 60 people and generates an annual turnover of around **€6 million**, playing a key role in supporting the Group's manufacturing operations.

2012

TRASMEC - CINA

Trasmec China was established in **partnership with VYNCKE** with the aim of reducing transportation costs and providing more efficient local support for customers across the Asian market.

2020

CLEAN ENERGY TECHNOLOGY

VYNCKE

VYNCKE joins Trasmec, which also became its primary global supplier for boilers and ash systems. This partnership helped Trasmec China to reach a total revenue of 9 million euros.

With over 100 years of experience and craftsmanship in combustion technology, **they deliver tailor-made energy solutions to industries and energy providers around the globe.**

With approximately 250 employees, the company boasts a turnover of 150 million euros.

By combining their expertise, the two companies deliver efficient and integrated solutions for **biomass plants, ensuring reliable fuel handling and stable heat production.**

2023

TRASMEC - INDIA

The opening of our facility in India marked another important milestone in the Group's international growth. Today, the site employs approximately 20 people and generates an annual turnover of around **€ 3 million**, supporting Trasmec's global production network.

Since 1983, A.R.C.E.M.I. Impianti **has been supplying machinery and complete systems for the lifting, extraction, and dosing of powdered and granular materials, like cement, mineral.**

Its technical expertise has allowed the company to establish itself in the industry as a synonym for precision and an absolute guarantee of quality. With a turnover of 3 million euros, the company currently employs 15 people.

2024

Trasmec finalizes the acquisition for control of A.R.C.E.M.I. Impianti Srl

2026

TRASMEC-BWF CHAINS

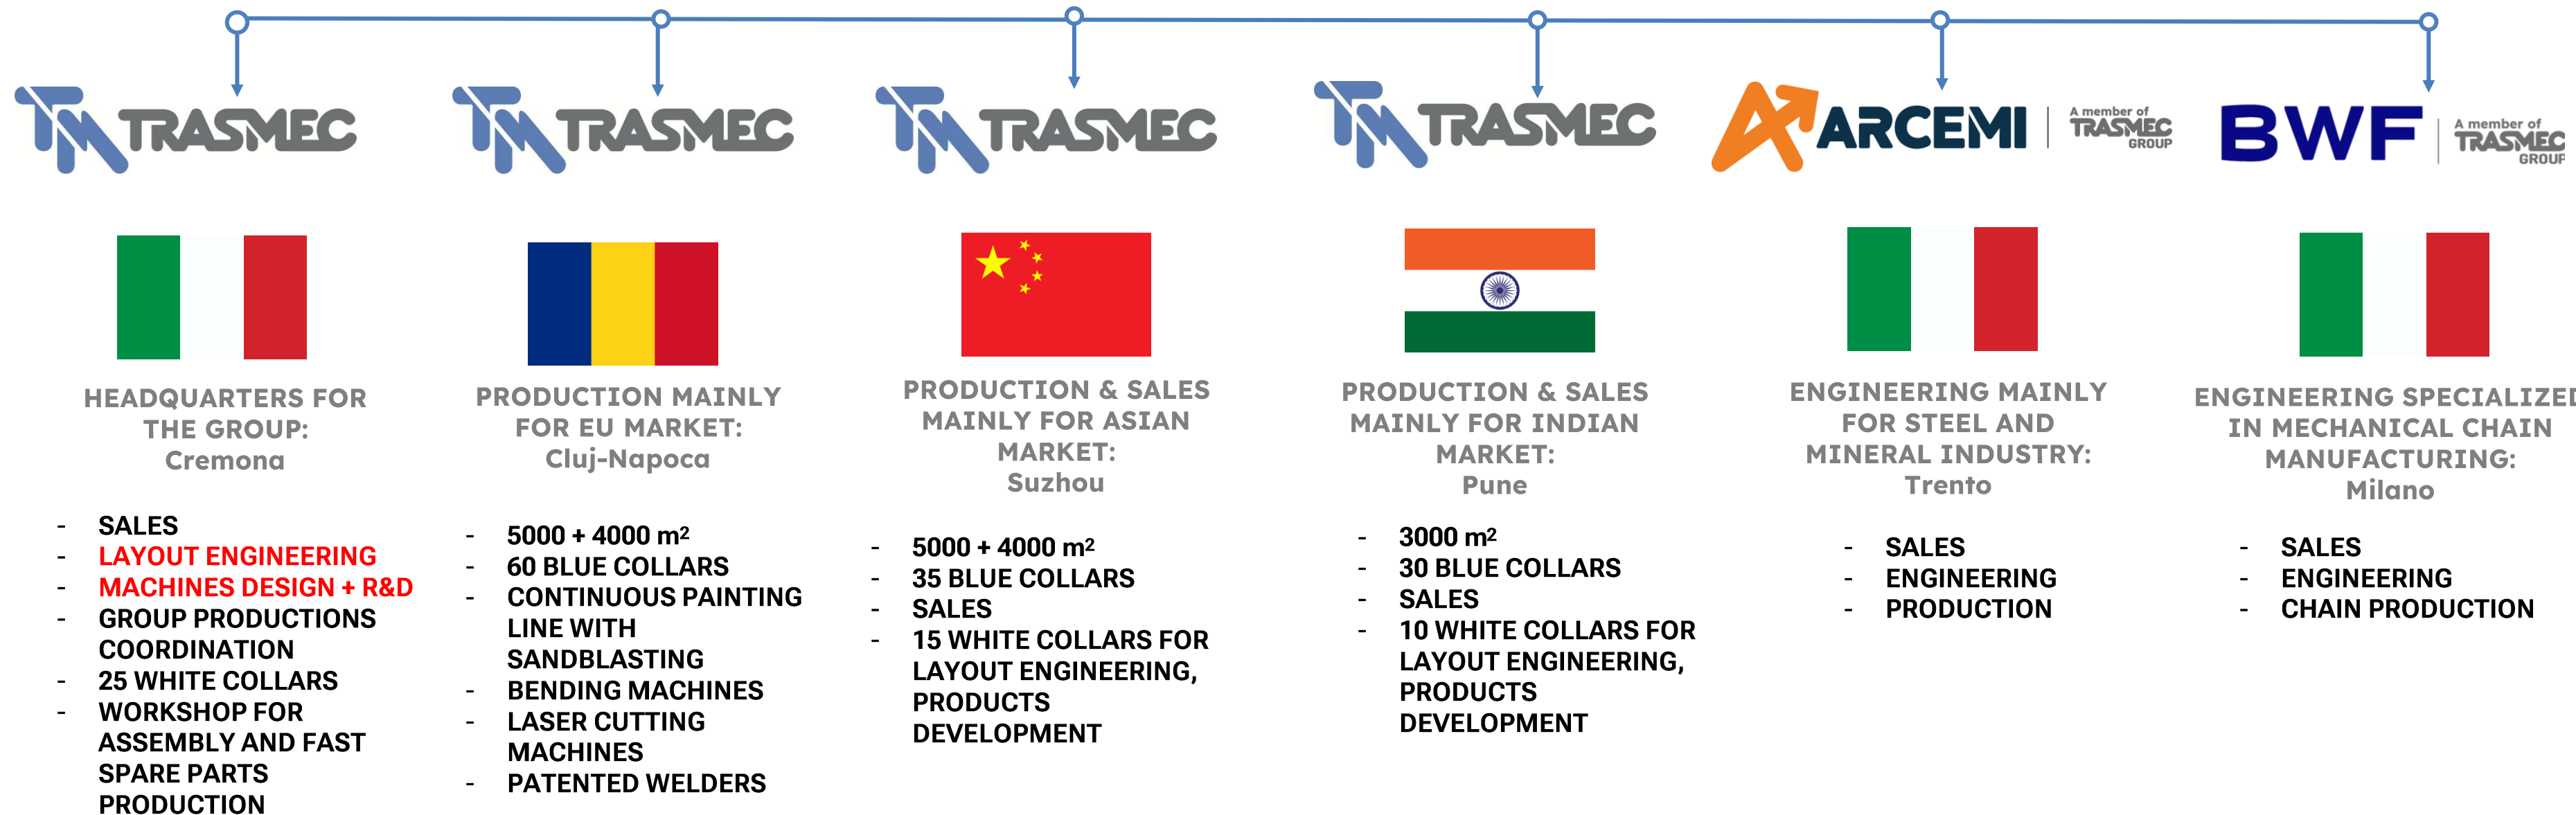

Trasmec acquires controlling stake in BWF, securing independent chain production and expanding its global manufacturing hub.

Trasmec identified the **strategic need to become independent** in the production of **forged and mechanical chains**, a **critical component** for its machines.

Following changes at its long-term supply chain, Trasmec explored acquiring a **controlling stake in BWF**, a company led by Marco Brambilla, whose production capabilities aligned with Trasmec's specifications.

This initiative allows Trasmec to **secure supply, expand production** for internal needs and third-party clients, and position the Group as a **flexible, global hub** capable of serving **Europe, the Americas, and Asia-Pacific** markets with **high-quality chains**.
