Energy Saving Cold Start Cartridge

Easy Installation From Top

Fast Mount Installation With One Hand

Easy Adjustment Quick Weight

Fingerprint-Proof

Easy Install Quick Connect System

KITCHEN MIXER

COLD START

Designed for both kitchen and bathroom applications, our **Cold Start** system ensures the handle only rotates forward, **avoiding interference with the wall**. This thoughtful engineering provides greater installation flexibility in tight spaces.

Beyond convenience, it promotes **energy saving** by delivering cold water in the center position, preventing the unnecessary activation of the water heater and reducing your carbon footprint.

EASY INSTALLATION

PURE WATER, PURE PEACE OF MIND

Our innovative **nickel-free technology** ensures every drop of water is free from heavy metals and harmful substances. By using advanced polymer materials and a **brass-free waterway**, we eliminate risks of metal migration and respiratory irritants. Enjoy the confidence and comfort of knowing your family's drinking water is **protected by engineering designed for wellness**.

FINISHES THAT INSPIRE YOUR SPACE

Our surface craftsmanship blends global design trends with local sensibilities, offering a curated palette of finishes that elevate any environment. From timeless classics to modern statements, our solutions are crafted for those who value **both beauty and durability**.

Effortless Brilliance Experience the **peace of mind** that comes with a finish designed to resist daily wear. Keep your space looking clean and elegant, no matter how busy life gets.

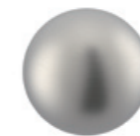

SpotArmor™ Surface Technology — Effortless Beauty, Lasting Cleanliness

Our advanced **SpotArmor™** surface treatment combine fingerprint resistance and spot-resistant performance, keeps your kitchen and bathroom fixtures looking **pristine**, even after frequent use.
