Our GenAI Use Cases

PROJECT 1: BUILDING MAINTENANCE DASHBOARD

Current Challenge: Heavy administrative workload for municipal facilities maintenance

GenAI Solution:

- **Smart Facilities Dashboard** - AI-powered equipment overview
- **Predictive Maintenance** - Anticipate needs before defects
- **Process Automation** - Replace email workflows
- **Asset Intelligence** - Track history & personnel

PROJECT 2: AI-ASSISTED PERMIT DRAFTING

Current Challenge: Complex permit processes for building works (safety, emergency exits)

GenAI Solution:

- **Automated Permit Generation** - AI-assisted compliant applications
- **Compliance Verification** - Identify anomalies before submission
- **Quality Assurance** - Increase first-time approval rates
- **Workflow Streamlining** - Reduce back-and-forth communications
