

Simple. Digital. Effortless.

**Production planning made for
small and medium-sized
manufacturers**

PPSimple: Feels like Excel – only smarter

PRODUCTION PLAN

Plan your production
the effortless way

Import, visualize, and schedule orders — all in one place.
Plan manually using your expertise or automate when things get busy.
Capacities, bottlenecks, and deadlines are always transparent.

PRODUCTION MONITOR

Digital shopfloor
control — because it
simply works

Orders, feedback, and disruptions are updated in real time.
Operators report progress directly from the machine.
Any change reaches production immediately — no detours, no delays.

DASHBOARD

KPIs that make
decisions effortless

Utilization, deadlines, and backlogs at a glance.
Intuitive, meaningful, and free from unnecessary complexity.
Real-time insights instead of guesswork — available anytime.

Digital planning that simply works

Many manufacturers face the same daily challenges: Excel lists, stacks of paper, constant changes, and lack of transparency. It costs time, energy — and ultimately money.

That's exactly why PPSimple was developed:

A digital production planning tool that works right out of the box.

- ◆ Fast setup: standard configuration, no lengthy onboarding.
- ◆ Intuitive use: works like Excel — just easier.
- ◆ Paperless: from planning straight to the shopfloor.
- ◆ Flexible: combine manual and automated scheduling.
- ◆ Responsive: changes appear instantly.
- ◆ Cloud-based: no servers, no maintenance, no IT hassle.

PPSimple digitizes your planning without disrupting your workflows - and without the need for a complex IT project.

Your benefits at a glance

- ◆ No investment in hardware or servers.
- ◆ Accessible anywhere: office, home office, or workshop.
- ◆ Always up to date thanks to automatic updates.
- ◆ High security with zero administrative effort.
- ◆ Predictable costs through a simple subscription model.

Less effort. More results.

Boost productivity by up to 15%

- ◆ Less searching, fewer calls, faster rescheduling.
- ◆ More time for real value creation.

Cut costs by up to 20%

- ◆ Less coordination, less paper, no Excel chaos.
- ◆ More balanced shifts, less overtime.

Reduce inventory by up to 5%

- ◆ More stable workflows through clear planning.
- ◆ Less safety stock required.

Save up to 30% in time

- ◆ Automatic order scheduling.
- ◆ No printed work orders.
- ◆ Send production sequences directly to machines.
- ◆ Report production progress digitally.

PPSimple - less administration, more production. Exactly what your business needs.
