BAG IN BOX
100 % NATURAL TEA

Real Tea naturally concentrated

Just look at the ingredients. Healthy and „real“ foods are all the rage and we want to offer our customers the precious raw material of Tea.

With our demanding lives, juggling so many tasks these days, we can all use a natural counterbalance.

Based on an idea by Manfred Haider, CEO and co-owner, pure Tea leaves and herbs are turned into a natural concentrate by way of a gentle process.

No extraction or dehydration is involved. All precious ingredients which we get from the Tea remain 100 % intact in the product.

„Only carefully selected ingredients are used in our Tea production. Thanks to the particularly gentle processing used, we can guarantee products based on natural ingredients.“

Manfred Haider

What makes the product unique?

- Extraordinary natural TEA's combined with **revolutionary dispenser** from ASCO Drink-Machines.
- With TeaTime Tea's you arrive at the category „Homemade“ and you can offer your clients the „extra“ in order **to compete with competitors**.
