

Advance practical benefits and innovative vision
in green transition and sustainable development

GXS AI Governance Lab

A glimpse into the responsible AI shaping tomorrow

Begin Exploration

<https://chuyendoixanh.org/gxs-ai-governance-lab/>

As participating in the 9th Regional Symposium on Effective Governance and AI Transformation, we propose to launch AI Governance Lab in order to advance responsible AI Governance for climate, sustainable development and innovation in Vietnam and Asia Pacific.

- Foster responsible AI Governance**
- Sustainable startup incubation toward green growth and sustainable development**
- Inclusive AI solutions pilot**

Asia must lead AI with fairness, not just speed -

We have the opportunity to lead differently!

Inclusion is Asia's edge

Asia doesn't need to copy Silicon Valley's mistakes.

We have the opportunity to lead differently,

to build AI that reflects our diversity, our cultures, our realities.

Our superpower isn't just speed or scale. It's the ability to blend innovation with values rooted in community, family, and balance.

If we lead with that spirit, tech in Asia won't just be fast.

It'll be fair.

And that might just be our biggest advantage of all.

Khám phá Sứ mệnh và Tâm nhìn của GXS AI Governance Lab

Giới thiệu sứ mệnh và giá trị cốt lõi của GXS AI-Governance Lab, thể hiện cam kết thúc đẩy quản trị AI có trách nhiệm nhằm phát triển bền vững và đổi mới sáng tạo tại Việt Nam.

The Future of AI Governance

AI-Driven Civilizations

Self-evolving AI systems governing smart cities with perfect efficiency and harmony.

Quantum-Powered Societies

Quantum computing solving problems in seconds that would take classical computers millennia.

Space Colonization

Self-sustaining colonies on Mars and Europa with millions of human inhabitants.

Climate-Reversing Tech

Atmospheric scrubbers and carbon capture returning Earth to pre-industrial conditions.

We have launched dozens of AI-powered applications and tools supporting SMEs green transition and be mentioned by Climate Champions:

<https://www.climatechampions.net/sme-momentum-climate-week-nyc-2025/>

Some can be listed here:

- AI consultation about climate, environment, ESG, green Economy, circular economy, etc.

<https://chuyendoixanh.org/sustaineco-mentor>

- Sustainability Planning and Greenwashing Detection:

<https://chuyendoixanh.org/sustaineco-mentor>

- **Circular economy business model development:**
<https://chuyendoixanh.org/cedhub/>
- **Comprehensive environmental intelligence hub:**
<https://chuyendoixanh.org/greenplusbygxs/>
- **Climate Risk Intelligence Base:**
<https://chuyendoixanh.org/pcrib/>
- **Sustainable Finance Hub: AI Consultation, Matching Financial providers and SMEs, Projects accesement and recommendation**
<https://chuyendoixanh.org/trung-tam-tai-chinh-ben-vung/>
- **ESG Performance Dashboard: Simplify ESG reporting by turning raw data into a clear story. Track everything from carbon emissions to employee diversity across multiple fiscal years.**
<https://chuyendoixanh.org/nentangesg/>

We invite partners to co-create, fund and scale an integrated program that turns symposium insight into measurable impact

- Establish a regional lab in Asia Pacific to pilot ethical, citizen-centred AI in public services**
- Capacity Building & Fellowships**
- Incubation & Research**
- Multi-stakeholder Labs & Measurement**
- Funding & Partnership Ask**

Let's partner to operationalize ethical, inclusive AI governance at scale.
