OEKO
TEX®

OEKO TEX CERTIFICATION

We guarantee that the garments we produce do not contain any substances harmful to health.

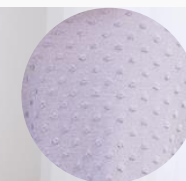

REDUCING CONSUMPTION AND RECYCLING WASTE

We only use the minimum of raw materials possible by optimizing the cut of the knitwear to reduce waste. The waste is then sent to textile recovery companies to make yarn again.

GOOD WORKING CONDITIONS FOR WORKERS

We conduct bi-annual interviews with employees to assess their level of satisfaction. We also promote team-building actions in order to raise the spirit of teamwork.

We have a fortnightly visit from a doctor to respond to any health problems of employees.

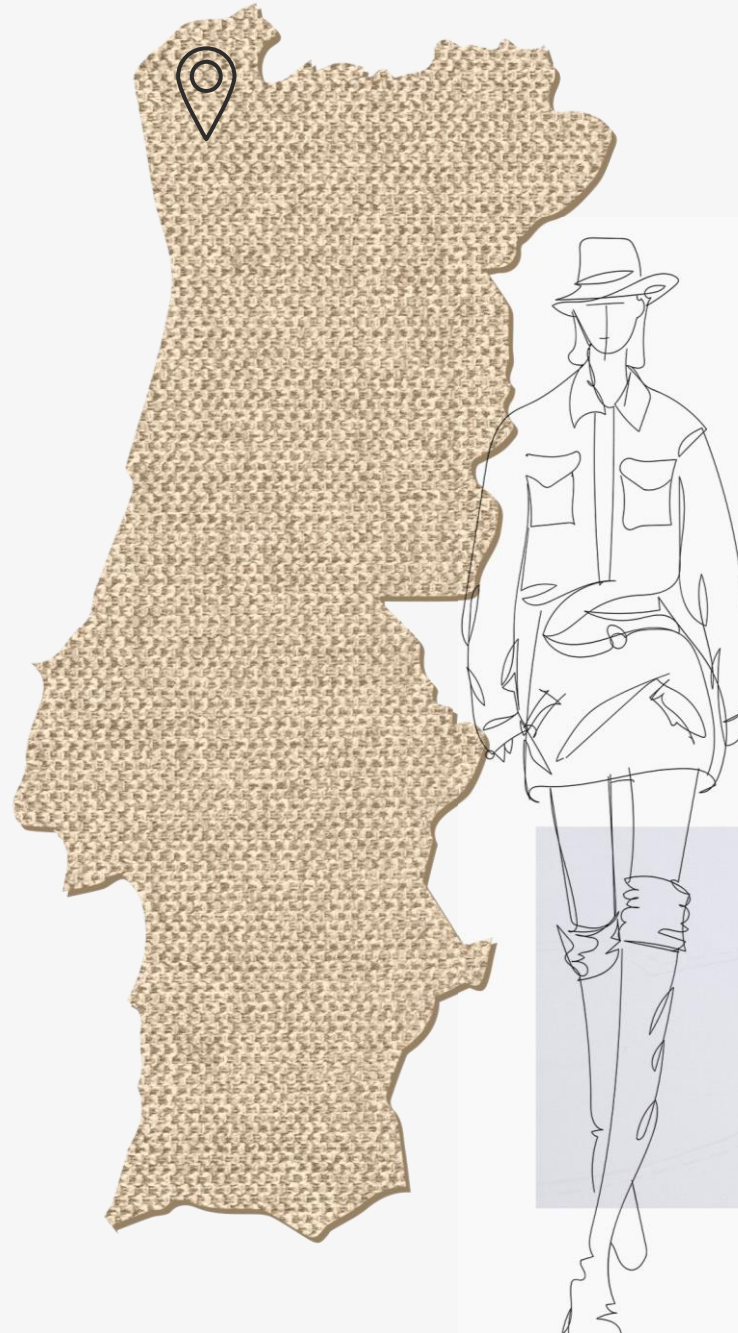

Our production has
HIGH QUALITY STANDARDS
