C1 CampusOne®

THE MODERN SCHOOL PLATFORM

Every centre. Every class. One platform.

Admissions to invoicing, registers to reports - CampusOne replaces your patchwork of tools with one system your whole team loves.

THE PROBLEM

School operations are scattered across too many systems.

Most schools and centre groups run a patchwork of disconnected tools - and pay for it in hours, errors and risk.

Separate tools for everything

SIS, classes, finance, messaging and HR each live in their own silo - nothing shares a source of truth.

No reliable data separation

Multi-centre groups struggle to keep each school's data cleanly apart - a compliance headache waiting to happen.

Three modes of teaching, three systems

On-site, live online and self-paced learning run in different platforms with different logins.

Safeguarding in spreadsheets

DBS expiry, SEN plans and incident logs tracked by hand - with no audit trail when it matters.

THE SHIFT

One operating model for the whole school.

CampusOne unifies admissions, timetables, on-site & live online classes, self-paced courses, finance, safeguarding and HR - with strict per-school data isolation and AI built in.

One unified platform

Every tool your institution runs on, working from a single source of truth.

Replace fragmented tools

Retire your stack of LMS, SIS, finance and messaging silos.

Centralised control

Govern multi-school operations with role-based access and audit trails.

✓ **Per-school isolation, enforced at the database level.** Every record carries its school and centre - separation isn't a policy, it's architecture.

WHY SCHOOLS SWITCH

Legacy MIS + point tools vs CampusOne.

CAPABILITY	LEGACY MIS + POINT TOOLS	CampusOne
Systems to run a school	✕ 5–6 separate subscriptions	✓ **One platform, one login**
Live + self-paced teaching	✕ Bolt-on video & LMS tools	✓ **Whiteboard, recordings & courses built in**
Multi-centre data	✕ Shared or duplicated databases	✓ **Per-school isolation at database level**
Safeguarding, DBS & SEN	✕ Spreadsheets on the side	✓ **Native, restricted-access, fully audited**
Fees & parent payments	✕ Manual invoicing & chasing	✓ **Stripe checkout & invoice tracking built in**
AI across the platform	✕ None, or ungoverned add-ons	✓ **Built in, with integrity safeguards & audit logs**

BUILT FOR EVERY ROLE

One platform, four tailored experiences.

Admin

Operations in one view

Centres, departments, staff, HR, finance and compliance - with full audit access and government reporting exports.

Teacher

Teach anywhere

On-site, live or self-paced. Mark attendance, set homework, run whiteboard sessions and grade with a pen tablet.

Student

Everything for class

Timetable, homework, exams, recordings and materials in one account - scoped to their own school only.

Parent

Two logins per child

Homework, attendance, fees and messaging - with WhatsApp Business notifications and Stripe payment history.

Role-based access control

Teachers see only their classes

Students linked to one school & centre

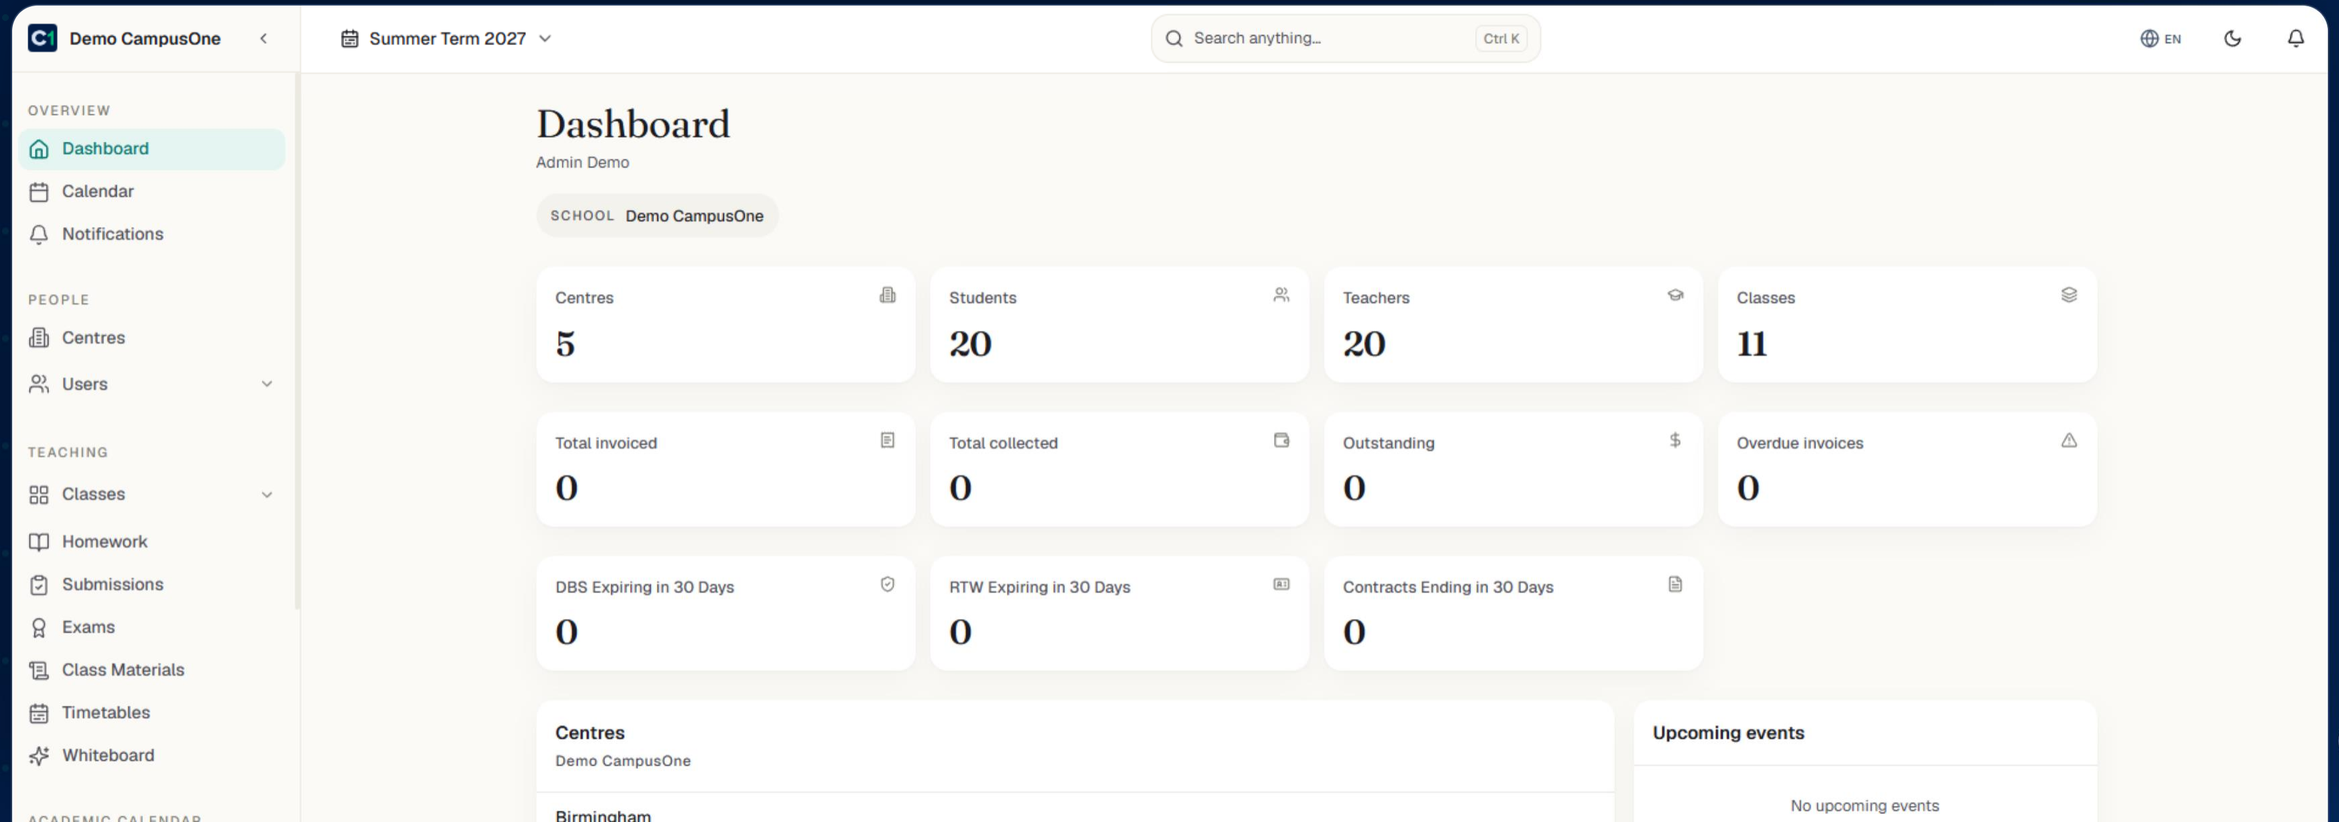

Full audit trail on restricted records

THE DASHBOARD

Your whole group, on one screen.

Students, teachers, classes and money across every centre - plus DBS, right-to-work and contract expiries surfaced before they become problems.

- Live KPIs per centre
- Invoiced · collected · overdue
- Compliance expiry alerts

THE FULL PLATFORM

Every module. Genuinely one system.

DEEP DIVE · TIMETABLING

Timetables that never double-book.

Per-centre weekly timetables with conflict detection across teachers, classes and rooms.

- **Conflict detection built in**
  Clashes across teachers, classes and rooms are caught before publication.
- **Academic years, terms & holidays**
  The whole calendar lives in one place, per centre.
- **Personal views for everyone**
  Staff, students and parents each see their own timetable - web and app.

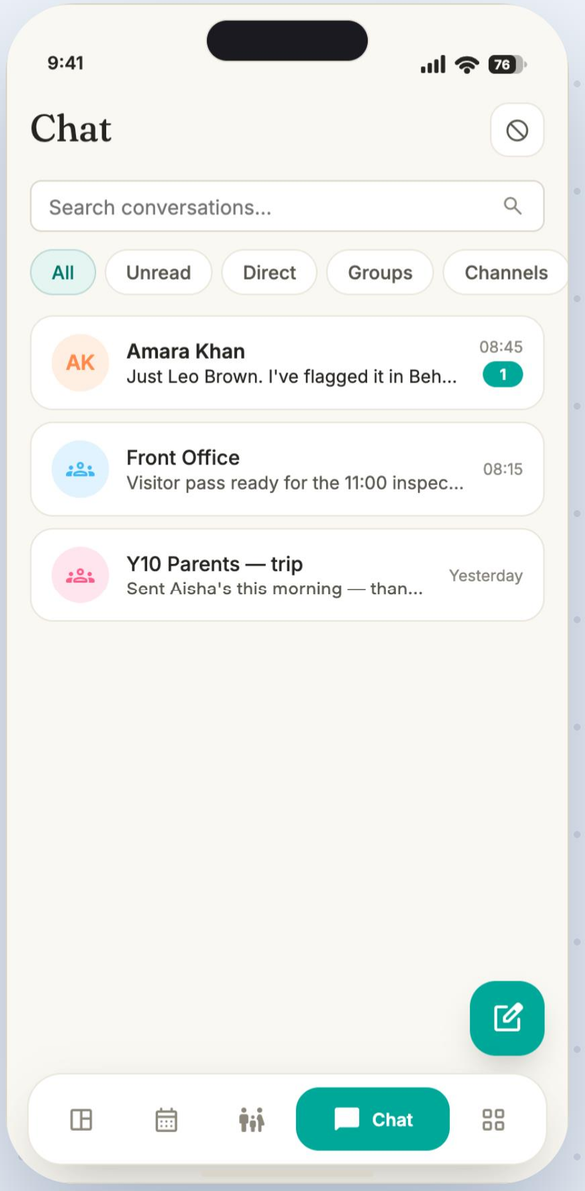

DEEP DIVE · PARENT COMMUNICATION

Parents in the loop, not in the dark.

Every family connected through the channels they actually read.

- **Two parent accounts per student**
  Independent logins with equal visibility of homework, attendance and fees.
- **Direct & masked messaging**
  Parents reach staff without personal numbers ever being shared.
- **WhatsApp Business, push, email & SMS**
  Notifications routed by each user's preference.

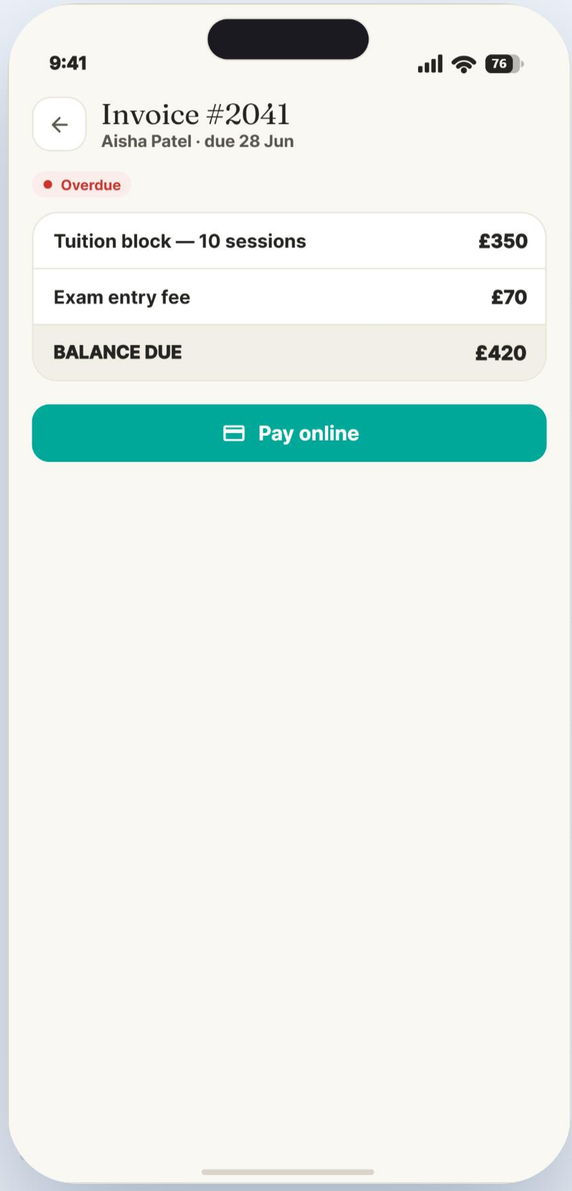

DEEP DIVE · FEES & PAYMENTS

Invoicing that collects itself.

Raise, send and reconcile fees across every centre - with live totals on the dashboard.

- **Stripe checkout built in**
  Families pay from the app; receipts and payment history land automatically.
- **Live collection view**
  Invoiced, collected, outstanding and overdue at a glance.
- **Billing profiles & bank transfers**
  Per-family billing, transfer tracking and payroll exports to CSV/Excel.

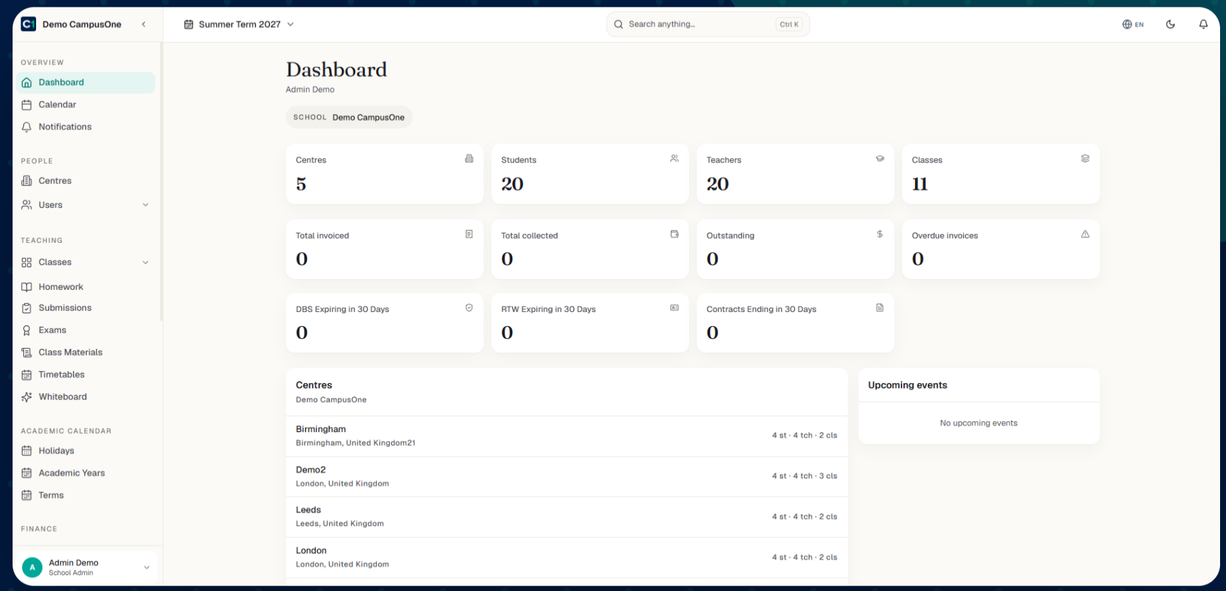

DEEP DIVE · BEHAVIOUR & SAFEGUARDING

Safeguarding that stands up to inspection.

Sensitive records handled properly - restricted, structured and fully audited.

- **Behaviour & SEN plans**
  Logs, SEN status, support targets and reviews with restricted access.
- **DBS & right-to-work alerts**
  Expiries surface on the dashboard 30 days out - never in a forgotten spreadsheet.
- **Incident logs & audit trails**
  Every access and change to sensitive records is recorded, immutably.

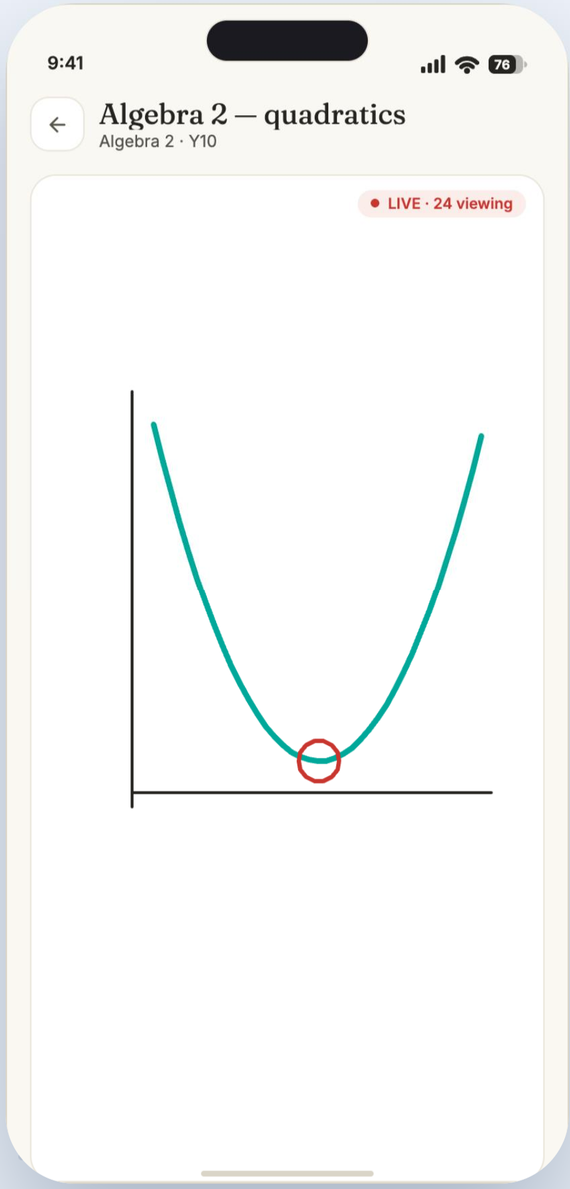

DEEP DIVE · LIVE CLASSES & WHITEBOARD

A classroom that opens in the browser.

Live online teaching without bolting on another video tool.

- **Browser whiteboard**
  With GAOMON pen-tablet support on Windows, Mac and Android.
- **Recordings & live chat**
  Every session recorded and replayable; chat runs alongside.
- **Per-session attendance**
  Live registers feed the same attendance record as on-site classes.

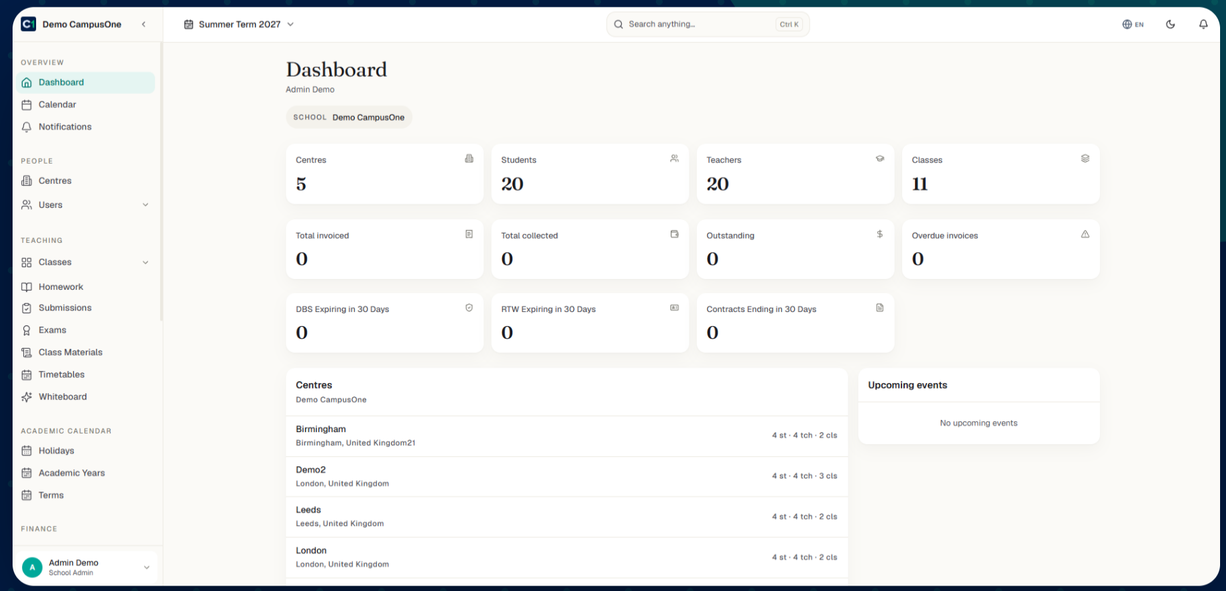

DEEP DIVE · ANALYTICS & REPORTING

Answers, not exports.

Group-wide insight the moment you log in - and reports ready when the government asks.

- **KPIs across every school**
  Students, staff, classes, attendance and money - per centre and group-wide.
- **Auto-generated reports**
  Attendance trends and progress reports, exportable and ready to send.
- **Government reporting**
  CSV and Excel exports formatted for statutory returns.

AI BUILT IN

Intelligence that respects academic integrity.

Purposeful AI for every role - designed with safeguards, transparency and audit trails.

AI for teachers

Homework generation, rubric & feedback suggestions, lesson summaries and at-risk student detection.

AI for managers

Attendance trends, engagement alerts and auto-generated reports across centres.

AI for students

Question explanations, hints and practice questions - scoped to their own classes only.

✓ **Academic integrity, by design.** AI text detection, plagiarism checks and writing-consistency analysis on submissions. School-scoped prompts, no cross-school training, immutable usage logs - and the teacher always makes the final decision.

SECURITY & COMPLIANCE

Built to be trusted with children's data.

Encryption everywhere

AES-256 at rest, TLS 1.3 in transit, end-to-end encrypted messaging and SOC 2-aligned controls.

GDPR & safeguarding ready

UK GDPR compliant, with safeguarding, DBS and SEN handling designed for inspection.

Isolation by architecture

Per-school data isolation enforced at the database level - every record carries its school and centre.

Role-based access

Staff see only what their role allows; restricted records carry extra controls.

Immutable audit trails

Every access to sensitive data is logged - audits take clicks, not days.

Published policies

Safeguarding, privacy, complaints, KYC and legal framework - public and versioned.
