**Gaziantep OIZ Technopark**, established in 2017 under Law No. 4691 through the partnership of Gaziantep Organized Industrial Zone and Hasan Kalyoncu University, operates inside **Gaziantep OIZ**, one of Türkiye's largest industrial hubs with 1,300+ companies and 300,000+ employees. This unique location enables companies to test technologies directly in real production environments and accelerate commercialisation.

The Technopark hosts **90+ technology companies**, **600+ R&D personnel**, and a strong university–industry cooperation network. With dedicated R&D offices, incubation spaces, meeting areas and shared facilities, it provides an integrated innovation environment for start-ups, SMEs and industrial R&D teams.
