

PÄÄTYTUOTE OY

www.paatytuote.com/en/

WHO WE ARE

- Päättytuote Oy (officially Saarijärven Päättytuote Oy)
- Family-owned independent company since 1988, second generation now in lead.
- Dedicated to serving tank manufacturers and specializing in cold metal forming.
- We employ 11 people and our turnover is 3 M €. Factory area is 4000 m² and space for expansion.
- The values are reflected in our operations. We do what we promise, reliably and with the customer's best interests in mind.

OUR FACTORY

- All products can be manufactured according to customers requirements and exact dimensions.
- Certified ISO9001 Management System and the PED pressure equipment certificate.
- Our speedy deliveries brings added value to our customers.
- Diameter range from 192 mm up to 5500 mm.
- Material thickness from 2 mm to 30 mm.
- Deep drawing products are made with presses, max pressing force of 1200 tn.
- Key materials are in our own stock. We have good availability of materials from our suppliers like SSAB and Outokumpu.
- Thanks to our versatile machine base, we can manufacture large and small series cost-effectively.

WHAT CAN WE DO?

- Our main products are convex products like tank heads, pressure vessel ends, convex discs and cones as well as pipe ends for example.
- Our special expertise is in fully customized convex products.
- Deep drawing products. Deep drawing is ideal for serial products due to its speed of manufacture.
- We make products from all moldable metals.
- Welding and assembling accessories.
- Products can be delivered with heat-treatment and with bevels for welding.
- Surface finishing sandblasting, pickling, grinding or painting.
- Vessel heads acc. to the PED quality standard (the Pressure Equipment Directive).
- Packing, marking and transportation are done acc. to customer needs.
- We can assist the customer about details how to make product more cost effective.

BENEFITS FOR THE CUSTOMER

- Uncompromising quality: Dimensions are accurate and surface finishing is good.
- Cost effective solutions: The versatile machines guarantees a cost-effective and fast supply both for large and small quantities.
- Experience: Päättytuote Oy offers its know-how with 30 years experience for your use.
