IN NOVI SAD**

## TURNING FOOD WASTE INTO FUTURE FEASTS!

Reprinted offers a revolutionary alternative to traditional snacks, providing custom-made, nutritious options through cutting-edge 3D printing technology. Our snacks combine personalized design, texture, and a tailored nutritional profile, all while eliminating waste and using high-quality ingredients.

Market research shows strong consumer support, with many seeing 3D printed snacks as the "food of the future," reflecting a clear demand for personalized, health-focused, and sustainable food solutions. Reprinted sets new standards for the future of food by delivering innovative, delicious, and eco-friendly snack products.
