reducing project budgets
by using AI

4x

faster allocation, hiring,
and onboarding of
seasoned talents than
on-site hiring

20%

reducing MRR through NIX's
cloud cost optimization
expertise

>2 million

hours invested in R&D
to explore cutting-edge
technologies and stay
ahead of the curve

HOW WE WORK

END-TO-END DEVELOPMENT

1

DIVE DEEP

- Explore business goals and project ideas
- Compose a solution
- Outline approach, deliverables, timeline, cost

2

SCOPE & PROPOSAL

- Identify the scope, finalize priorities and milestones
- Assert architecture and tech stack
- Estimate the project, outline the roadmap
- Transparent agreements (NDA, MSA, SOW) ensure IP protection and clear terms
- Project kick-off

3

PROJECT IMPLEMENTATION

- Iteration breakdown, implementation based on priorities
- Coding standards, CI/CD, QA services to ensure a reliable, high-quality solution
- Regular progress updates, demos and feedback sessions
- Full delivery of project IP: all code, documentation, and assets
- Smooth project launch and deployment

4

GROW & EVOLVE

- Tech and infrastructure support
- Promo and digital marketing if needed
- Future enhancements, new features & updates

HOW WE WORK

TEAM AS A SERVICE

1

DIVE DEEP

- Discuss your project goals and business challenges
- Define a clear, tailored collaboration process
- Finalize terms of work (MSA, SOW)

2

TEAM SETUP & PROJECT PLAN

- Assemble a SWAT team, initial onboarding, knowledge transfer
- Identify the scope and risks, choose a methodology
- Architect a solution, estimate and plan
- Build PoC/MVP if needed
- Project kick-off

3

DEVELOPMENT DELIVERY

- Launch implementation and follow SDLC
- Scale the team according to the project needs
- Receive regular updates and demos, provide ongoing feedback
- Full delivery of project IP: all code, documentation, and assets
- Smooth project launch and deployment

4

ONGOING SUPPORT & EVOLUTION

- Post-launch technical and infrastructure support
- Collaborate on new versions and future feature development
- Access our digital marketing services if needed

OUR CAPABILITIES

Extensive range of software solutions, provided using best practices and the most suitable tech stack.
