Expertise (1/2)

- 1. Financing Green Transition:** connecting private and public institution in development of accessible and including public spaces, rethinking the public-private nature of financing:

Connecting ESG, CSRD, Green and Just transition in new spatial planning development approach, linking future public investments with private initiative and delivering new financing and management concepts.

- NONA project: <https://interreg-danube.eu/projects/nona>
- BauNOW project: <https://keep.eu/projects/29241/Investing-in-Green-and-Just-EN/>
- Danube FutureWorks Investment Conference, supported by EC: <https://danubefutureworks.urbanes.land/>

Expertise (2/2)

- 2. Bauhaus concept capacity building and application of project at regional level,** such as the case of transformation of Old Ironworks as a catalyst for reinvention of small municipality of Ravne na Koroškem, under the moto Future Works!

Seeking

We are seeking partnerships interested in:

- 1. Exploring possibilities to connect various financing streams (banks, impact investors, green and community bonds) and opportunities to new generation of public investments.** Especially materialising the concepts of accessibility, inclusion and multifunctionality, developed under the principle/concept of NEB. We can offer interested parties all over EU, FOCUSING ON Danube region,
- 2. Application of NEB principles in their projects,** offering EU and global network of NEB community stakeholders through the EU Commission Living Lab NeBoD and network of national level experts, supporting implementation of NEB in national cohesion policies,
