

# Robotic Urban Service Hub : A Smart Mobility & Emergency Response Solution using Autonomous Robots

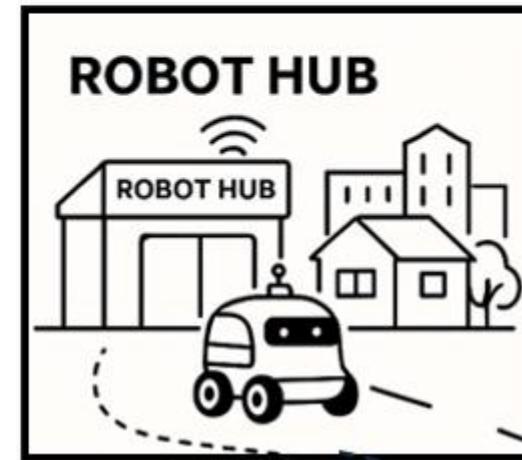

## ON-DEMAND DISPATCH

Residents request tools, emergency supplies, simple repairs, and more using an app or voice commands

## AUTONOMOUS ROUTING

Delivery of tools, groceries, parcels, and medical supplies

## OPTIMAL ROUTE BASED ON REAL TIME

SWAT Mobility's platform intelligently plans the robots' routes based on real-time requests

## ROBOT CAPABILITIES

- Delivery of tools, groceries, parcels, and medical supplies
- Basic diagnostics and repairs (e.g., battery jump, air filter change)

*Multi-purpose Robots: Robots are modular; we can swap "tool pods" for different jobs or purpose.*

AED, First Aid

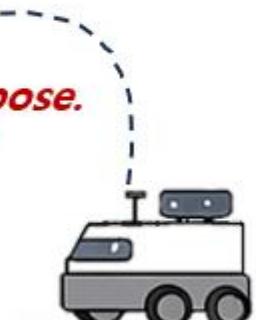

Delivery of Groceries, Food

Patrol Mission at Night

Daily Necessities such as Umbrella, Power bank, eco Bag

Basic Diagnostics & Repair Tool
